OUR MISSION

To protect and serve the interests of California consumers.

OUR VISION

California consumers make informed choices and have access to competent and ethical service providers.

OUR VALUES

As a government agency dedicated to serving the interests of California consumers, the Department of Consumer Affairs values:

ACCOUNTABILITY

We are accountable to the people of California and each other as stakeholders. We operate transparently and encourage public participation in our decision-making whenever possible.

EFFICIENCY

We diligently identify the best ways to deliver high-quality services with the most efficient use of our resources.

EFFECTIVENESS

We make informed decisions that make a difference and have a positive, measurable impact.

INTEGRITY

We are honest, fair, and respectful in our treatment of everyone.

CUSTOMER SERVICE

We acknowledge all stakeholders as our customers, listen to them, and take their needs into account.

EMPLOYEES

We are an employer of choice and strategically recruit, train, and retain employees. We value and recognize employee contributions and talent.

UNITY

We draw strength from our organizational diversity as well as California's ever-changing cultural and economic diversity.

MESSAGE FROM THE ACTING DIRECTOR

I am pleased to present the Department of Consumer Affairs' (DCA) Annual Report for Fiscal Year 2010-11.

Despite constraints resulting from the past year's faltering economy, DCA has been vigilant in preserving the integrity of California's marketplace and in protecting the health and welfare of consumers. DCA continues to fulfill its mission through the efforts of dedicated staff members who have learned not only how to use resources wisely but also how to work smarter. I commend them for advancing DCA's effectiveness and efficiency in light of the challenges all of us have faced.

This report features some representative, but by no means exhaustive, achievements of DCA's more than 36 boards, bureaus, program, committee, and commission, which establish and enforce minimum competency standards for such professions and vocations as nursing, automotive repair, accounting, and psychology. In FY 2010-11, these regulatory entities collectively issued more than 2.5 million licenses, certificates, and approvals in approximately 240 classifications.

While we recognize that most of DCA's licensees are highly principled professionals, we acknowledge there are some practitioners who take advantage of consumers, especially in times of economic adversity. Therefore, we have continued to make consumer protection a priority by focusing sharply on licensee enforcement. To that end, the Bureau of Automotive Repair (BAR) conducted more than 50 sweeps and stings of automotive repair shops across several major California counties and successfully identified numerous unlicensed automotive repair operations.

Because we firmly believe that consumers want to be proactive and, further, that informed consumers become more empowered consumers, our boards and bureaus have taken steps to arm them with the information they need to make prudent decisions in the marketplace. For example, the Contractors State License Board conducted an extensive public education campaign that encourages consumers to check the contractor's license before they sign on the dotted line.

To raise consumer awareness, a Notice to Consumers regulation now requires physicians to post a sign that informs patients of their licensure by the Medical Board of California and provides information on how to file a consumer complaint.

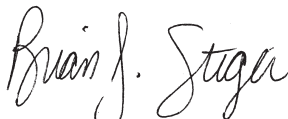

We know that finances have been and are still paramount to all of us. I am gratified to report that DCA's Arbitration Certification Program put approximately \$10 million back in consumers' pockets through refunds, replacement vehicles, extended service contracts, and repairs by way of State-certified arbitration programs. Our Complaint Resolution Program also assisted consumers in recovering more than \$535,000 in refunds and adjustments.

Along similar lines, BAR enabled many eligible motorists to receive up to \$500 in assistance from the State for emissions-related repairs and at least \$1,000 to retire qualified vehicles. Over the past year, BAR provided financial assistance toward the repair of nearly 44,000 vehicles.

Given the sluggish economy and unprecedented unemployment numbers, we are mindful of the pressing need for new job opportunities for Californians. Acting on U.S. Department of Labor employment growth projections, the Board of Vocational Nursing and Psychiatric Technicians approved the admission of more than 5,000 additional students for new and existing statewide programs.

Aside from our boards, bureaus, and other entities, DCA encompasses a support network, which includes a Consumer Information Center (CIC). CIC responded to more than 1 million telephone calls over the past year, as well as answering more than 28,000 letters and e-mails. In a fragile economy, it appears that consumers count on reliable guidance for goods and services even more than during robust times.

These are just a few of the highlights of our accomplishments in Fiscal Year 2010-11. The following pages of this report will give you a more comprehensive perspective of how hard we at DCA work to serve and protect California's consumers.

BRIAN J. STIGER, ACTING DIRECTOR, CALIFORNIA DEPARTMENT OF CONSUMER AFFAIRS

SUPPORT SYSTEM

DCA's various entities are supported by the dedicated and talented staff of 16 programs, divisions, units, and offices, all of which are strongly committed to DCA's consumer protection mission. These legal, technical, and administrative professionals inform and empower consumers, promote consumer interests before lawmakers, enforce consumer protection laws, collaborate with law enforcement to fight consumer fraud, resolve disputes between consumers and businesses, and work to ensure that consumers have a voice in the California marketplace. They also train and develop management and staff to ensure they have the core competencies essential to individual and DCA success.

THE OFFICE OF ADMINISTRATIVE AND INFORMATION SERVICES provides essential central support services to DCA's boards, bureaus, program, committee, and commission. It is DCA's largest division and consists of two branches, the Office of Administrative Services and the Office of Information Services.

THE OFFICE OF ADMINISTRATIVE SERVICES (OAS) provides the accounting, business, personnel, and budget services that keep DCA running smoothly and efficiently. OAS consists of three programs: Business Services, Human Resources, and Fiscal Operations. Business Services ensures that DCA entities promote sound business decisions and practices in contracting and purchasing goods and services. OAS also manages DCA's facilities, vehicle fleet, emergency response, and mailroom, copying, and imaging services. Human Resources provides full-service human resources support for employees within DCA and for its client agencies through the following functional areas: Classification and Pay, Health and Safety, Labor Relations, Personnel Transactions, Selection Services and Recruitment, Equal Employment Opportunity, and Special Projects Unit. Fiscal Operations provides budget, accounting, and central cashing services for DCA.

In 2010-11, the Business Services Office's Digital Print Services expanded its services to provide for more in-house printing options as a cost-savings measure. The Fiscal Operations Office continued to implement online Renewal Payment services by adding the Contractors State License Board. This service allows licensees to pay their renewals by credit card.

The Office of Human Resources continued to implement recommendations from an assessment of its internal policies, processes, and procedures to provide DCA employees with services and resources that are efficient and effective.

The Business Services Office's Small Business/Disabled Veterans Business Enterprises (SB/DVBE) program received a Department of General Services' State Agency Bronze Advocate of the Year Recognition Award in recognition of the DCA's continued efforts and achievements in supporting California's small businesses. The SB/DVBE program also received an award from the California Black Chamber of Commerce for Diversity in Procurement and Outreach at the 15th Annual Ron Brown Economic Summit.

The Office of Human Resources instituted monthly personnel liaison meetings and began publishing a Personnel Liaison Newsletter highlighting attendance, benefits, payroll, and other important issues to ensure optimum communication between DCA personnel liaisons and the Office of Human Resources.

THE OFFICE OF INFORMATION SERVICES (OIS) directs and manages information technology for all of DCA. OIS consists of Applications Services, Enterprise Technology Services, Infrastructure Services, Client Services, Enterprise Project Services, and the Information Security Office. Application Services maintains the Consumer Affairs System (CAS) and the Applicant Tracking System (ATS) databases that form the core of DCA's business processes. Enterprise Technology maintains and supports DCA's

UNIX/Wide Area Network as well as the Internet and intranet sites, and maintains the Enterprise Architecture. Infrastructure Services maintains the desktop and network service, which includes DCA's e-mail system, file, and print services, client device support (such as PCs, notebooks, phones, and handheld devices) and DCA's variety of phone systems across the State, which are primarily Voice-Over Internet Protocol (VoIP).

Client Services provides an array of services that support DCA's regulatory entities, including public sales (licensee information), customer liaison, and production support. It includes the Family Support Unit, which maintains systems that involve processing limited license hold issues related to child support systems, and the Service Desk, which is the first point of contact to request OIS services. Enterprise Project Services provides project management assistance, control agency liaison services, oversees the OIS change management and release process, manages the BreEZe project which will replace the DCA legacy systems, and is implementing IT Governance. The Information Security Office establishes the DCA IT security and data privacy policies, maintains the business continuity planning process, investigates IT security breaches, and acts as the liaison to the California Technology Agency in matters related to the IT security of DCA.

In 2010-11, OIS completed the procurement process for a new integrated licensing and enforcement system, called BreEZe, awarding the development contract to Accenture LLC. Development activities will begin in 2011-12. OIS completed the conversion of the DCA e-mail system from Lotus Notes to Microsoft Outlook as required by the California Technology Agency prior to the move to the California E-mail System at the end of 2011. Part of the conversion process included the activation of Microsoft Active Directory and the elimination of the existing Novell environment. OIS also moved the State and Consumer Services Agency staff from an OTECH-supported technology environment to the DCA-supported technology environment at their request. In addition, OIS implemented the OIS Service Desk, which consolidates five of its service desk functions into one centralized unit. Along with the Service

Desk, OIS implemented the CA Service Desk Manager application, used as the primary service tracking tool. OIS also coordinated DCA's response to the Governor's requirement for a 50 percent reduction in cellular phone usage.

THE COMPLAINT RESOLUTION

PROGRAM (CRP) helps resolve complaints that consumers have filed after experiencing difficulty or disappointment in the California marketplace. This service is a valuable alternative to costly litigation that can overwhelm the consumer, the licensee, and the State's court system. Complaint resolution services are performed by highly trained staff and, through contracted translation services, are available in more than 177 languages.

In 2010-11, CRP reviewed more than 4,852 consumer complaints and referred 150 of them to DCA bureaus for investigation of serious allegations such as fraud, oversell, bait and switch, false advertising, and gross negligence. CRP's assistance resulted in consumer refunds and adjustments totaling more than \$535,000. CRP resolved more than 41 percent of all complaints within an average of 29 days or less. CRP has offices in four major metropolitan areas in California, which offers the opportunity to engage in both local and statewide consumer outreach efforts. CRP also assisted CIC by handling 37,622 calls from consumers this fiscal year.

THE CONSUMER INFORMATION CENTER

(CIC) is DCA's information resource center for consumers and licensees. Through its Call Center and Correspondence Unit, CIC provides consumers and licensees with user-friendly information, advice, and instruction, and identifies the government agency or community organization that can best address their needs. CIC staff also help consumers understand their complaint resolution options after experiencing difficulty or disappointment when purchasing goods or services. The Call Center maintains an internationally available toll-free number, (800) 952-5210. CIC employs a number of agents fluent in Spanish and, through contract services, is able to provide assistance in more than 177 languages. In 2010-11, the toll-free 800 number received more than 1 million calls. Calls handled by CIC

phone agents were answered within four to five minutes, on average. The Correspondence Unit responds to e-mails and letters sent to DCA and assists the Executive Office with written responses to complaints sent by consumers addressed to the DCA Director, the State and Consumer Services Agency, and the Governor's Office. CIC maintains an e-mail address, dca@dca.ca.gov, through which consumers can request information and assistance. In 2010-11, the Correspondence Unit responded to more than 28,000 letters and e-mails. Correspondence Unit staff answer e-mails within one to two business days, and answer letters within 30 days.

THE EQUAL EMPLOYMENT

OPPORTUNITY (EEO) OFFICE serves all DCA consumers, employees, applicants, and licensees by promoting equal employment opportunity. The EEO Office also promotes affirmative action for persons with disabilities and works to prevent and eliminate discriminatory practices through policy implementation, training, education, and outreach. In Fiscal Year 2010-11, the EEO Office investigated complaints of discrimination; provided services in the form of informal EEO counseling, mediation, and referrals to other related agencies; tracked mandatory sexual harassment prevention training compliance for all DCA employees; and completed the Annual Workforce Analysis. The EEO Office coordinated the Biennial Language Survey, the Language Survey Implementation Plan, activities of the DCA Disability Advisory Committee, and distributed information related to the DCA Upward Mobility Program and the Whistleblower Protection Act.

THE DIVISION OF INVESTIGATION (DOI)

is the general law enforcement and investigative branch of DCA. It is the only entity within DCA that employs peace officer investigators having the statutory authority to investigate any violation of those laws administered by DCA's boards, bureaus, program, committee, and commission. DOI investigators are sworn to enforce the law and uphold the Federal and State constitutions and the municipal laws of the State of California. DOI's mission is to provide law enforcement investigative services in order to protect California consumers and licensees

by effectively and efficiently enforcing laws, regulations, and professional standards. DOI is dedicated to protecting the public health, safety, and welfare by providing timely, objective, courteous, and cost-effective investigations regarding allegations of misconduct by licensees of client agencies, and to developing information for filing criminal, administrative, and civil actions on behalf of these agencies. DOI field investigations frequently involve allegations of the illegal use and theft of drugs, sexual misconduct, quality of care issues, and unlicensed activity. In Fiscal Year 2010-11, DOI field staff completed 1,293 investigations, made 27 arrests, executed 12 search warrants, and referred 150 cases for criminal filings. The remainder of the cases were forwarded to the various DCA boards, bureaus, program, committee, and commission for appropriate action.

Within DOI, the Special Operations Unit (SOU) works to ensure and maintain the quality and integrity of staff and regulated people and entities, while promoting and protecting workplace security and employee safety. The SOU is responsible for leading the following DCA programs and investigations: workplace violence prevention and threat assessments; criminal offender record information program and clearances; infraction citation program and clearances; and internal affairs investigations. The SOU also oversees the following DOI internal programs and investigations: firearms maintenance and training; defensive tactics; computer forensics; background investigations; and internal affairs investigations.

In 2010-11, DOI:

- Cleared investigations more than a year old. In 2009-10, DOI committed to completing all of its investigations in less than a year through a variety of strategies designed to reduce current case backlog; increase efficiency in the investigative process; optimize investigative services relative to resources, staffing, and fiscal constraints; and strengthen DOI's role as the national leader in professional licensing enforcement. The current average completion time is seven months or less and currently there are no cases more than a year old. By aggressively

completing cases in a timely fashion, the public is assured greater consumer protection through efficient investigative services.

- Worked with client boards and bureaus to prioritize complaints. As the initial point of contact for clients, DOI's Intake Unit meets with each client board and bureau to assist in determining which consumer complaints should be referred to DOI. The Intake Unit was created in June 2007 to increase the efficiency of DOI's Field Operations by screening and evaluating cases before they are assigned for further investigations. It is crucial that complaints involving serious allegations be identified and investigated in a timely manner. The Intake Unit works with each client to discuss alternatives to potential case referrals; assist in case prioritization strategies; and tracks case dispositions to measure the success of DOI's investigative efforts. By assisting the client boards and bureaus, DOI can use its investigative resources on the most critical complaints. This allows the Intake Unit to resolve the small administrative cases through fast turnaround which allows for investigative efficiencies that improve case closure rates.
- Provided instruction to attendees of DCA's Enforcement Academy. DOI was instrumental in developing strategic enforcement curriculum and providing sworn staff to teach at DCA's Enforcement Academy for DCA's non-sworn investigators. The Enforcement Academy provides knowledge on how to conduct administrative investigations while ensuring compliance with laws and regulations. The benefit to the public is the ability for a greater number of DCA staff to protect California consumers and licensees by effectively and efficiently enforcing laws, regulations, and professional standards.
- Conducted sting operations on behalf of DOI's various clients. In times of economic difficulties, the chance for consumer harm increases as unlicensed individuals attempt to provide services to the public. Issuance of a license demonstrates a minimum level of knowledge and expertise in an individual's field. Unlicensed individuals have failed to demonstrate they have the professional

ability to provide a service. Additionally, it is unknown if the unlicensed individual will actually provide services within the confines of the law once that person receives payment. By conducting sting operations for our clients, the public is assured that DCA is committed to protecting the public health, safety, and welfare to reduce the number of unlicensed complaints.

THE LEGAL AFFAIRS DIVISION includes the Legal Office, the Legal Services Unit, and the Administrative Unit. These units provide legal services to DCA's Executive staff, programs and all DCA constituent agencies. The Legal Office serves as in-house counsel for the Executive Office as well as counsel to the boards, bureaus, programs, committees, and commission. Its lawyers provide legal advice to the constituent agencies, as well as opinions and analysis of laws, regulations, proposed legislation, and contracts. They also provide advice on personnel matters, the Open Meetings Act, the Public Records Act, and the Information Practices Act, as well as on other issues impacting the protection of consumers.

The Legal Services Unit counsels the Director in carrying out the consumer mandates of the Consumer Affairs Act. This unit created and maintains several consumer handbooks and guides, including *California Tenants: A Guide to Residential Tenants' and Landlords' Rights and Responsibilities*; *The Small Claims Court: A Guide to Its Practical Use*, and more than 30 user-friendly legal guides.

The Administrative Unit provides in-house counsel to DCA's administrative divisions, including Human Resources, EEO, Labor Resources, and Contracts. It also provides legal assistance to DCA's Division of Investigation and provides legal representation for DCA in personnel and EEO matters before the State Personnel Board and the Department of Personnel Administration.

Notable projects completed in Fiscal Year 2010-11 include: a new edition of *The Small Claims Court: A Guide to Its Practical Use*; an updated subpoena manual for use by all entities within the Department; the update of 15 legal guides; extensive work on Senate Bill 1441

workgroups on uniform standards regarding substance abuse and healing arts licenses; and the Consumer Protection Enforcement Initiative. The Division also prepared materials for and instructed three modules and provided course instruction at DCA's Enforcement Academy.

THE LEGISLATIVE AND POLICY REVIEW

DIVISION (LPR) serves as DCA's resource on legislative, policy, and regulatory matters, representing DCA's positions on these matters before the Legislature. LPR monitors and analyzes legislative bills on consumer issues, reviews proposed regulation packages, and provides substantive policy consultation and review on a myriad of issues throughout DCA and its affected entities.

LPR advises DCA's Director on public policy affecting consumers, as well as on any proposed regulations that impact the public health, safety, and welfare of Californians. LPR tracks and attends all board and bureau meetings to identify, analyze, and monitor policy issues, as well as other matters of interest. LPR coordinates crosscutting and multidisciplinary policy projects on behalf of DCA, often involving multiple boards and bureaus. Additionally, LPR provides in-depth analytical support services, when necessary, across DCA's multiple entities.

In 2010-11, LPR monitored and analyzed 262 legislative bills on consumer issues and reviewed 62 proposed regulation packets submitted by various DCA entities.

LICENSING FOR JOB CREATION (LJC):

The Department of Consumer Affairs' 2010-12 Strategic Plan Goal 3 states that "California is the recognized national leader in professional licensing and contributes effectively to job growth in California." To meet this goal, DCA began an aggressive licensing oversight program in early 2010. The goal of the program is to contribute toward California's job growth through expeditious and efficient processing of professional and business licenses and examination applications.

In March 2010, DCA embarked on a concentrated four-month effort to reduce existing licensing and examination application workload. Many boards and bureaus reduced

their pending workload, licensing, and examination approvals. In addition, these entities issued licenses at an increased rate during this period. In August of 2010, DCA established a Licensing for Job Creation (LJC) Unit to help continue the licensing improvement efforts and develop operational and structural application processing improvements that foster continued job creation.

A new monthly reporting mechanism was created to measure the average processing time for initial exam and licensing applications from start to finish. In addition, this report measures initial applications received, initial applications approved, initial applications closed, and initial licenses issued. By monitoring and oversight of this monthly report, licensing entities LJC works collaboratively with all DCA licensing entities to help reduce DCA's pending initial exam/initial licensure backlog. LJC also provides input for establishing performance measurements for licensing functions, helps develop best practices, suggests changes to statutes or regulations, and identifies any additional licensing resource needs.

Additional LJC highlights and ongoing achievements with DCA and other State agencies are as follows:

- As of January 2011, the majority of DCA reporting entities approve applications and/or issue licenses within 30 days of receipt.
- Through troubleshooting of the monthly report, LJC has improved accuracy and efficiency of use of the current licensing database and made recommendations for numerous process improvements. As a result, pending numbers were reduced by more than 10,000.
- Established a method to identify pending applications that were complete versus applications missing information that the applicant needs to provide in order to continue to process.
- Prepared a Quarterly Summary Analysis of licensing trends by industry type focusing on increases or decreases in license and exam applications, approvals and licenses issued.
- LJC works in conjunction with DCA's BreEZe team to ensure a seamless licensing data

transition from the current licensing system to the new BreEZe system.

- LJC works closely with the Office of Statewide Health Planning and Development to provide licensing data necessary to identify possible access disparities under the new Health Care Reform Act.
- Prepared a new publication entitled *California Healthcare Jobs: Working for Tomorrow*. This publication is designed to inform students interested in a career in healthcare about educational and experiential requirements necessary for licensure in California.

THE OUTREACH UNIT is dedicated to educating consumers, industries, community-based organizations, and stakeholder agencies about DCA's resources and services. In Fiscal Year 2010-11, due to cost and travel restraints, the Outreach Unit shifted much of its focus from events and presentations to other means of reaching consumers without cost. The Outreach Unit's efforts included: facilitating six Consumer Protection Leaders Roundtable meetings throughout the State; coordinating a monthly Sacramento Library Speaker Series; coordinating with the Contractors State License Board in Senior Scam Stoppers presentations; partnering with the U.S. Postal Service during National Consumer Protection Week; and continuing to foster partnerships with important professional and government organizations throughout the State and country.

One outcome of the Consumer Protection Leaders Roundtable meetings was the ongoing discussion on debt collection issues. DCA Outreach gathered large quantities of information from the Federal Trade Commission, news articles, reports, and attendees at the roundtable meetings and drafted a report on debt collection. The report addressed the following topics:

- Collector responsibilities
- Enforcement efforts
- Sale of debt
- Consumer rights and outreach education

Through the Consumer Protection Leaders Roundtables, DCA Outreach was able to make

and strengthen vital partnerships with various county district attorney offices focused on consumer protection issues as well as:

- California Attorney General's Office
- Better Business Bureau
- California and Nevada Credit Union Leagues
- California Consumer Affairs Association
- Community Colleges Family and Consumer Sciences Statewide Advisory Committee
- Consumer Action
- Consumers Union
- Department of Corporations
- Federal Trade Commission
- Los Angeles County Department of Consumer Affairs
- California Office of Privacy Protection
- Public Good Law Center

THE OFFICE OF PROFESSIONAL EXAMINATION SERVICES (OPES) provides professional expertise in examination validation services to DCA's licensing entities through pro rata and intradepartmental contracts. OPES also provides analytical and consultative services for all aspects of the examination validation process, including occupational analyses, examination construction, passing score methodology, statistical analyses, and administration. OPES follows the highest technical and professional standards in the industry and is committed to ensuring that licensing examinations are psychometrically sound, job-related, and legally defensible. Since 1998, OPES has provided oversight for DCA's master contract for computer-based testing (CBT) administration.

In 2010-11, OPES:

- Developed and delivered 59 written examinations and three occupational analysis reports.
- Created OPES Policy 11-01, effective March 1, 2011, regarding Participation in Examination Development Workshops.
- Drafted a Licensure Examination Validation policy.

- Completed two reports to address Objective 3.2 of Goal 3 of DCA's Strategic Plan to evaluate the computer-based licensure examination process for efficiency.
- Implemented more stringent security procedures for expert consultants serving as subject matter experts.
- Updated Informational Series No. 8 Fact Sheet to address the role of expert consultants.
- Completed new instructions for the Section 139 Report and provided it to all of DCA's licensing entities.
- Received officewide training in customer service according to DCA's Seven Cs of Customer Service.
- Completed, submitted, and received approval for a feasibility study report for the Computer Based Testing (CBT) project.
- Initiated steps to renegotiate a new CBT master contract to replace the existing one that expires in May 2012.
- Implemented online questionnaires for occupational analysis reports in order to save printing, mailing, and data entry costs; decrease staff time; and reduce the project length for our clients.

THE OFFICE OF PUBLIC AFFAIRS (OPA)

creates and executes strategic media and communications plans for DCA, proactively provides news media with information of interest to consumers, and responds to media inquiries. In 2010-11, OPA continued to expand video production and webcasting abilities while placing more multimedia content on DCA's Web site, YouTube, and Twitter. OPA has also alerted media to unlicensed activity sweeps.

THE OFFICE OF PUBLICATIONS, DESIGN & EDITING (PDE) designs, edits, and distributes more than 200 consumer publications produced by DCA's various entities and Executive Office. PDE supports DCA's licensees by producing and publishing online newsletters for many of its boards and bureaus, and supports DCA staff by producing *Did You Know?*, the monthly online newsletter for employees. PDE also coordinates the translation of consumer publications into various languages

such as Spanish, Korean, Chinese, Vietnamese, and Tagalog. PDE staff also write, edit, design, and distribute DCA's award-winning quarterly magazine, *Consumer Connection*. PDE has received more than 40 national, international, and State awards for writing, editing, and graphic design since 2007.

In 2010-11, PDE staff earned five awards from the State Information Officers Council for excellence in writing and graphic design. Also in 2010-11, PDE created a comprehensive and updated *Resource and Referral Guide* to assist consumers in filing complaints, understanding their rights, and locating governmental programs and services. Two other new publications were created this year: *What to Do if the Debt Collector Calls*, and *Consumer's Guide to Healthcare Providers* (also available in Spanish). In addition, PDE began offering four of its most popular publications on CD to save printing and mailing costs.

SOLID TRAINING SOLUTIONS: SOLID Training Solutions supports the competency development of all DCA employees through training needs analysis as well as the design, development, delivery, evaluation, and administration of employee training and education programs. SOLID maintains a strong commitment to supporting the Consumer Protection Enforcement Initiative through training and development programs. In 2010-11, SOLID conducted two Enforcement Academies and graduated 80 DCA employees from this intensive week-long course covering the full range of enforcement functions that are performed at DCA. SOLID introduced two new enforcement-related training programs, including a two-day probation monitoring course designed to teach techniques and skills necessary for successful probation monitoring at DCA as well as a course on the drug testing process. SOLID also worked with the Council on Licensure, Enforcement and Regulation to conduct two sessions of their National Certified Investigator Basic Training at DCA. This week-long course covering core investigative techniques was successfully completed by 138 DCA employees.

In 2010-11, SOLID delivered 145 training classes on a wide variety of professional development topics with a total attendance

of 2,285. In addition, SOLID developed and conducted 20 customized training programs for individual work teams throughout DCA on such topics as team-building, group dynamics, and communication. DCA also held its fourth Management Academy in spring 2011. A total of 30 managers and supervisors graduated from the program. In addition, SOLID developed and added several new classes to the DCA course catalog this year, including Completed Staff Work, Stress Management, Getting to Know DCA, Progressive Discipline for Managers, and Regulations Development.

SOLID also expanded its course offerings to include hands-on technical training by developing and offering the new Introduction to Word and Excel 2010 and Introduction to Outlook 2010 classes and by conducting department-wide Office 2010 overview training for DCA employees who upgraded to the new software version.

THE STRATEGIC PLANNING AND DEVELOPMENT UNIT (SPD) develops and oversees DCA's strategic plan; assists DCA's licensing entities with strategic planning; develops and implements the DCA's performance measures; coordinates the Employee Recognition Program; manages and reports on DCA's consumer satisfaction surveys; offers process improvement assistance; maintains the Knowledge Management Center; and provides a wide variety of other organizational development services.

In 2010-11, SPD facilitated the development of nearly a dozen strategic plans for various DCA entities. These documents are essential business tools that lay out a roadmap of what each program desires to accomplish in the coming years, and how it will achieve those goals. SPD also facilitated several process improvement sessions, dedicated to streamlining DCA processes, cutting cycle times, and making it possible for boards and bureaus to do more with less.

Fiscal Year 2010-11 also saw the official launch of the DCA Consumer Protection Enforcement Performance initiative, in which the boards and bureaus began publicly reporting on important milestones and measurements associated with

their enforcement activity. SPD was charged with gathering cycle-time, volume, and consumer satisfaction data, and generating quarterly reports for each program. These reports are now available on DCA's Web site.

THE PROCESS IMPROVEMENT TEAM

(PIT) is a DCA-wide volunteer team that provides ad hoc consultation to DCA's Executive Office and the Strategic Planning and Development (SPD) Unit to evaluate and prioritize process improvement projects, ensuring they are well designed, appropriate, efficient, and sustainable.

In Fiscal Year 2010-11, PIT provided Acting Director Brian Stiger with cost-saving ideas to reduce government spending, including:

- Use electronic signatures, eco fonts, duplex printing, and "draft" printing.
- Reduce the number of printed and mailed publications and newsletters.
- Use teleconferencing, videoconferencing, and the Internet for meetings.
- Provide e-meeting alternatives for SOLID training.
- Provide in-house training in Microsoft Word and Excel.
- Increase awareness and use of established contracts for reduced shipping costs.
- Reduce after-hours lighting at the DCA headquarters building.

EXPLANATION OF STATISTICAL INFORMATION

DCA's regulatory boards and bureaus license, register, certify, permit, or approve individuals or businesses according to legislation and regulations. These regulatory entities also investigate complaints and discipline those who violate practice requirements.

In the pages that follow, each board, bureau, or other entity notes its accomplishments for Fiscal Year 2010-11. The data varies among boards and bureaus because of different legislative mandates for each regulatory program. Therefore, not all categories of data apply to all programs. In some instances, data may not be reported because a program does not track the information.

The definitions and criteria for data used in the tables are explained below:

PROGRAM SUMMARY

STAFFING

Includes the number of civil service (staff) positions and exempt employees approved in the State budget. Exempt employees are executive-level personnel usually appointed by the board, the DCA Director, or the Governor.

BOARD, COMMITTEE, COMMISSION, OR BUREAU ADVISORY GROUP MEMBERS

The first line of the table shows the total number of members mandated by law as of the end of Fiscal Year 2010–11. The next two lines divide the total number into the number of mandated professional and public members. Professional members represent a specific profession, field, or constituency. Public members represent the public as a whole. Both types are appointed by the Governor, the Senate Rules Committee, or the Speaker of the Assembly.

STRATEGIC PLANNING AND OUTREACH

The date given is the date the entity established its strategic plan. Outreach details the number of times the executive officer or staff participated in outreach events for consumers, professional groups, etc.

SUMMARY OF LICENSING ACTIVITY

TOTAL TYPES OF LICENSES/CERTIFICATES/ PERMITS

The number of initial applications, the number of licenses issued, and number renewed. Licensing population means how many individuals hold each type of license or certificate

RENEWAL AND CONTINUING EDUCATION

These figures include how often a license must be renewed and how many hours of continuing education are required.

EXAMS

Total number of candidates who passed or failed an exam for licensure. Note: Candidates may take an exam more than once a year.

SUMMARY OF ENFORCEMENT ACTIVITY

COMPLAINTS

These include complaints from the public, government, law enforcement, licensed professional groups, internal sources, others, or anonymous. A complaint is defined as, "an allegation or inquiry from any source indicating a probable violation of any law, rule, or order of any regulatory agency, including violations of the Business and Professions Code relating to businesses and professions licensed by any agency of the Department of Consumer Affairs."

CONVICTION/ARREST NOTIFICATION COMPLAINTS

Convictions, applicant-reported convictions, or subsequent arrests are listed. "Pending" includes all conviction/arrest notification complaints pending at the end of the fiscal year regardless of the date the complaint was received.

INSPECTIONS

The total number of enforcement inspections conducted during the fiscal year. It includes initial, routine, complaint driven, and follow-up inspections and the number of citations issued as a result of an inspection.

INVESTIGATIONS

An investigation is defined as the collection and verification of facts to determine jurisdiction and potential violations of law. Investigations begin as soon as they are assigned. The number includes desk investigations and field investigations.

NUMBER OF DAYS TO COMPLETE INTAKE AND INVESTIGATION

The timeline begins from the date the complaint was received to the date the investigation was closed.

CITATIONS AND FINES

These numbers show citations issued with or without an administrative fine, and citations withdrawn, or dismissed. The average refers to the average number of days from the date the complaint was received to the date a citation was issued.

TOTAL AMOUNT OF FINES

Amount assessed, reduced, and collected.

CRIMINAL/CIVIL ACTIONS

These are referrals to or filings by a District Attorney or City Attorney for criminal or civil action. These may include misdemeanor citations. A referral may be made both to the District Attorney and the Office of the Attorney General and will be reflected in both categories.

OFFICE OF THE ATTORNEY GENERAL/ DISCIPLINARY ACTIONS

Complaints and investigations in which the evidence and facts have substantiated a violation of the law are referred to the Attorney General for disciplinary action. Outcomes of disciplinary action may affect the issuance or status of a professional's license.

NUMBER OF DAYS TO COMPLETE AG CASES

This table refers to the number of closed cases in the previous table. The timeline covers the date the complaint was received to the date the order became effective.

FORMAL ACTIONS FILED/WITHDRAWN/DISMISSED

All actions filed, withdrawn, or dismissed during the year.

ADMINISTRATIVE OUTCOMES/FINAL ORDERS

Disciplinary action taken in the cases closed by the Attorney General.

PETITION FOR MODIFICATION OR TERMINATION OF PROBATION

Outcome of petitions by licensees to reduce terms and conditions of probation or to terminate probation early.

PETITION FOR REINSTATEMENT OF REVOKED LICENSE/REGISTRATION/CERTIFICATION.

The outcome of those requests.

COST RECOVERY TO DCA

Total dollar amount of administrative costs ordered repaid to DCA. Note: Costs ordered may never be realized.

CONSUMER RESTITUTION TO CONSUMERS/ REFUNDS/SAVINGS

Total dollar amount of court-ordered restitution to consumers as a result of mediation efforts. In some instances, services were performed without charge to the consumer, a consumer's bill was reduced, or a product was returned or exchanged.

CALIFORNIA BOARD OF ACCOUNTANCY

www.dca.ca.gov/cba

Created in 1901, the California Board of Accountancy (CBA) licenses and regulates more than 5,000 firms and more than 82,000 licensees, the largest group of accounting professionals in the nation. CBA's licensure program establishes minimum standards for entry into the profession and, because of the dynamic and ever-changing nature of the profession, establishes minimum continuing education requirements designed to maintain or enhance licensees' currency of knowledge. CBA also maintains a vigorous enforcement program designed to protect consumers from substandard practice through the rehabilitation of licensees, as warranted.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Approved the delegation of authority to the Executive Officer to sign stipulated decisions for revocation or surrender of license on behalf of CBA. The Executive Officer's authority to sign such disciplinary documents enhances consumer protection by expediting enforcement matters, and supports Goal 1 of CBA's 2010-12 Strategic Plan, which is to pursue an active, effective, and efficient enforcement program to maximize consumer protection.
- Implemented a mandatory peer review program for the accountancy profession in California, with the first group of licensees reporting. The Peer Review Program protects consumers by enhancing the quality of public accounting services in California and fulfills Objective 7.1 in CBA's 2010-12 Strategic Plan to implement mandatory peer review in California.
- Developed the framework for new regulations that will govern the 30 additional units of education necessary for licensure effective January 1, 2014. The new regulations are part of CBA's goal to promote licensee competency and specifically support Objective 7.4 of CBA's 2010-12 Strategic Plan to review general accounting experience requirements for licensure and revise regulations as warranted.
- Launched Facebook and Twitter accounts to facilitate outreach to consumers and other stakeholders while minimizing expenditures for more traditional outreach. These endeavors are in concert with several objectives under Goal 4 of CBA's 2010-12 Strategic Plan to provide and maintain effective and timely outreach to all CBA stakeholders, including Goal 4.1, ensure that all communications are current and Goal 4.5, increase transparency of CBA activities.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

CBA successfully enacted several regulations to implement a mandatory peer review program, which included the following:

- Peer review finalized (December 20, 2010). This regulation package was the certificate of compliance for CBA's emergency regulations that implemented the Peer Review Program.
- Peer Review Oversight Committee (December 21, 2010). This regulation package established the guidelines for the Peer Review Oversight Committee.
- Continuing education exemptions and extensions (February 2, 2011). This package added a requirement that any regulatory review course must cover Article 6 - Peer Review of the Board of Accountancy Regulations.
- Peer review provider requirements (April 25, 2011). This package requires peer review providers to furnish CBA with failed peer reviews within 60 days.

In addition, CBA was able to help offset the cost of the new Peer Review Program to licensees through a fee reduction package (April 14, 2011), which reduced initial license and renewal fees from \$200 to \$120 for a four-year period effective July 1, 2011, and ending June 30, 2015.

3,865*		

* This number represents the total number of candidates who passed their final section of the Uniform CPA Examination (CPA Exam). The CPA Exam consists of four sections - Auditing and Attestation, Business Environment and Concepts, Financial Accounting and Reporting, and Regulation. The CPA Exam is computerized and candidates sit for each section individually. Once a candidate successfully completes one section of the CPA Exam the candidate must then pass the remaining sections of the CPA Exam within 18 months to pass the CPA Exam. The California Board of Accountancy does not currently have the capability to provide the number of candidates who failed the CPA Exam during FY 10/11.

ACUPUNCTURE BOARD

www.acupuncture.ca.gov

The Acupuncture Board (Board) regulates the practice of acupuncture and Asian medicine in California. Acupuncturists treat health conditions by inserting very thin needles through the skin to stimulate “acu-points” found at certain locations on the body. The Board establishes the minimum qualifications that individuals must meet to practice acupuncture and sets the standards of conduct within the profession.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010–11

- Adopted Infection Control Guidelines. The guidelines are based on minimum standards that are industry-accepted and known to minimize the risk of transmission of infectious diseases.
- Came into full compliance with the National Practitioner Data Bank and the Healthcare Integrity and Protection Data Bank requirements.
- Implemented a recruitment and formal training program for enforcement expert witnesses.
- Enhanced the Board's probation program by using Phamatech to monitor probationers who are required to submit to random biological fluid tests.
- Added a new renewal application form to the Web site for the convenience of licensees.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010–11

- Implemented retroactive fingerprinting. Licensed acupuncturists who were licensed prior to January 1, 2001, or for whom a record of submission of fingerprints no longer exists, are required to submit fingerprints to the Department of Justice for a criminal history check and to undergo a State and Federal criminal offender record search as a condition of renewal.
- Drafted a regulation to require candidates for admission to a training program taught in a language other than English to submit proof of passing the Test of English as a Foreign Language (TOEFL) at an Internet-based testing facility. It is essential that an acupuncturist be able to speak and understand the English language when dealing with a person's healthcare.

ARBITRATION CERTIFICATION PROGRAM

www.dca.ca.gov/acp | www.lemonlaw.ca.gov

The Arbitration Certification Program (ACP) was established in 1987 to certify and monitor third-party arbitration programs of participating automobile manufacturers to ensure compliance with California laws and regulations related to new vehicle warranties and these State-certified arbitration programs. ACP works closely with manufacturer-sponsored arbitration programs to ensure that arbitration hearings comply with Federal and State regulations, and that they are conducted in a fair and expeditious manner. When compared to other states around the nation, California is unique where manufacturers are not required to be certified. However, 64 percent of the auto manufacturers have a state-certified arbitration program. California's lemon law protects consumers who buy or lease vehicles with serious warranty defects that cannot be repaired by the manufacturer or dealer under the manufacturer's original limited warranty.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Facilitated the return of approximately \$10 million to consumers in the form of refunds, replacement vehicles, extended service contracts, and repairs awarded by State-certified arbitration programs. This was based on all State-certified manufacturer arbitration programs buyback of lemon vehicles for 2010-11.
- Audited 222 dealerships. This number represents ACP's hands-on education with the manufacturing industry from speaker presentations at dealer meetings to onsite dealership audits and disclosure requirements by dealers of the availability of the State-certified arbitration programs to consumers. ACP considers dealership audits a strategic outreach goal on consumer education regarding the arbitration mechanism.
- Required all of its State-certified manufacturers and program administrators to update their joint certification files with their most current application materials and their written operating procedures.
- Conducted an annual consumer satisfaction survey which is mandated by the Legislature. The survey was revamped to evaluate and compile better response statistics from consumers by using a pre- and post-survey methodology.
- Created a tri-fold lemon law brochure to reduce paper and rising publication costs and facilitated speaker presentations at mandated arbitrator trainings conducted by State-certified arbitration programs.
- Furthered the goal of "going green" by referring consumers, manufacturers, and program administrators to ACP's Web site to download lemon law publications and other resource materials. This effort reduces the use of paper and saves the State money. However, ACP provides printed copies of any of these materials upon request.

CALIFORNIA ARCHITECTS BOARD

www.cab.ca.gov

The California Architects Board (Board) licenses and regulates more than 21,000 active, licensed architects who are responsible for designing billions of dollars' worth of structures in the State of California. The Board's regulation of the profession of architecture protects consumers of architectural services, as well as the people who inhabit or use the structures that architects design.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Completed 2010-11 sunset review process. The Board completed its sunset review report and submitted it to the Senate Business, Professions, and Economic Development Committee on September 30, 2010. The Board's hearing was held on March 21, 2011, to address any concerns, and a written response was submitted to the Committee with explanations about its concerns prior to the 30-day deadline. If approved by the Legislature, Senate Bill 543 (Price) will extend the Board's sunset date until January 1, 2016.
- Implemented the new California Supplemental Examination computer-based exam format in February after having an oral exam for decades. By changing the exam format, candidates can now schedule and take the exam at locations that are closer to them and at a time that fits their schedules. The exam is available five days a week at testing sites throughout the State and multiple locations across the country.
- Changed all of the Board's meeting materials to an electronic format. The materials are now readily available to the public on the Board's Web site prior to meetings. This saves the Board time and resources.
- The Board conducted outreach sessions at all of California's architectural schools to maintain communication and to address issues the schools may have. At these sessions, the Board also provides information on the importance and benefits of an architecture license.
- Began posting scores of the Architect Registration Examination, the national examination, on the Board's Web site in July 2010. The Board posts the scores online so that candidates can review their results in a timely manner and other jurisdictions could utilize the site as a reference for individuals applying for licensure in those locations.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- Assembly Bill 1746, Emmerson (Chapter 240, Statutes of 2010). Beginning in 2013, the bill authorizes the Board to conduct random audits of at least three percent of its licensees in each renewal cycle for compliance with continuing education requirements.
- The Board obtained approval of regulations to increase some of its fees effective January 1, 2011. The Board had not increased its licensing fees for more than 20 years, and in that time, the cost of doing business in California has dramatically risen to the point where the Board's fund would have been depleted.

CALIFORNIA STATE ATHLETIC COMMISSION

www.dca.ca.gov/csac

The California State Athletic Commission (CSAC) regulates boxing, kickboxing, and full-contact martial arts, including Muay Thai and mixed martial arts throughout the State of California. CSAC monitors and evaluates USA Boxing and California Amateur Mixed Martial Arts Organization (CAMO) to which CSAC has delegated some of its authority over amateur events. CSAC administers the Professional Boxer's Pension Plan which provides a retirement benefit to former professional boxers. CSAC licenses all event participants and ensures the health and safety of athletes through the most stringent medical requirements in the nation, evaluation of the athletes' skills and careful supervision of each event. CSAC takes the necessary steps to stop unlicensed events.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Sanctioned approximately 178 events with 1,634 total matches. CSAC continues to sanction more events per year than any other state or country.
- Sanctioned nine boxing and two mixed martial arts World Championship bouts.
- Increased outreach for Professional Boxer's Pension Plan through media outlets and sanctioned events, resulting in a substantial increase in claims.
- Avoided traumatic injuries requiring overnight hospital stays for all athletes due to the review of safety standards by the Advisory Committee on Medical Safety Standards, changes to various regulations and extensive training of inspectors, officials and physicians. The result has been a decline in serious injuries to athletes.
- Created and published outreach brochures aligned with the strategic plan for CSAC that have been distributed to boxers at pro debut evaluations and weigh-ins, offering valuable information and support.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- CSAC underwent sunset review and its existence was extended to 2014.
- Proposed the following changes to sections of Title 4, California Code of Regulations (currently pending):
 - Sections 221, 222, 226, 230 – amendment to contracts between promoters and boxers.
 - Section 262 – repeal the use of courtesy passes.
 - Section 288 – clarify the definition of ringside physician.
 - Section 300 – amendment to examinations given to contestants by physicians.
 - Section 340 – how to score when an injury occurs that is not the result of a foul.

BUREAU OF AUTOMOTIVE REPAIR

www.bar.ca.gov | www.smogcheck.ca.gov

The Bureau of Automotive Repair (BAR) registers automotive repair dealers, resolves consumer complaints, conducts investigations, and refers cases to State and local law enforcement agencies for prosecution. Since 1984, BAR has administered California's Smog Check program, which is designed to reduce excess emissions from gasoline and diesel-powered passenger vehicles and light-duty trucks. Approximately 21 million vehicles are subject to an inspection every two years and when they undergo a change of ownership. BAR also administers the Consumer Assistance Program (CAP), which allows eligible consumers to receive up to \$500 in State assistance for emissions-related repairs. CAP also offers eligible consumers either \$1,000 or \$1,500 to retire a qualified vehicle.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Doubled to 42,525 the number of vehicles retired over the prior fiscal year and provided financial assistance toward the repair of 43,958 vehicles. Because of CAP, BAR reduced an estimated 14,175 tons of hydrocarbons, oxides of nitrogen, and carbon monoxide in California.
- Expanded CAP to allow for the retirement of any eligible vehicle at any time and for any reason, as mandated by Assembly Bill 118, Nunez (Chapter 750, Statutes of 2007).
- Modified the eligibility requirements of CAP, providing eligible low-income consumers an additional \$500 to retire a vehicle and prohibiting consumers from receiving financial assistance toward emissions-related repairs based solely on owning a vehicle that has been directed to a Gold Shield or Test-Only Smog Check station for an initial inspection, as mandated by Assembly Bill 787, Hill (Chapter 231, Statutes of 2010).
- Obtained final approval to begin development of the California Vehicle Inspection (Cal-VIS) Project. Cal-VIS will modernize California's Smog Check Program with the development of an On-Board Diagnostic inspection system for model year 2000 and newer vehicles. Smog Check stations will begin using this equipment in early 2013.
- Performed 4,235 Emissions Inspection System analyzer audits at Smog Check stations. BAR found 2,640 instances of noncompliance that required corrective action. In 461 of the audits, the identified compliance issues were immediately corrected. Most of the remaining problems were corrected within seven days of the audit.
- Participated in sting operations targeting unlicensed automotive repair businesses in Sacramento, San Diego, and Shasta counties, resulting in 22 arrests. These unlicensed individuals were cited for violating the law and were referred to local district attorney offices for adjudication.
- Issued 18 Interim Suspension Orders and two Penal Code section 23 orders against 57 licensees that engaged in illegal activities related to the Smog Check Program, including

“clean piping” or “clean plugging” violations. Clean piping and clean plugging are fraudulent methods to certify vehicles that would not pass a Smog Check inspection on their own.

- Participated with the Economic and Employment Enforcement Coalition (EEEC) on 51 automotive repair shop sweeps in Los Angeles, Orange, Sacramento, and Santa

Clara counties. The sweeps identified individuals engaged in automotive repair without a license, among other violations. The EEEEC is a partnership of State and Federal agencies collaborating to educate business owners and employees on Federal and State labor, employment, and licensing laws.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- Assembly Bill 2289, Eng (Chapter 258, Statutes of 2010) creates penalties ranging from \$100 to \$5,000 for violations of Health and Safety Code section 44050, establishes station and technician inspection-based performance standards, and allows for an alternate testing method for model year 2000 and newer vehicles, among other things.
- Assembly Bill 787, Hill (Chapter 231, Statutes of 2010) mandates the vehicle retirement incentive be set at no less than \$1,500 for low-income consumers whose income is no more than 225 percent of the Federal Poverty Guidelines and \$1,000 for all other motor vehicle owners. This bill also limits financial assistance for emissions-related repairs to low-income consumers. Regulations to implement this have been adopted.
- Assembly Bill 2461, Emmerson (Chapter 388 Statutes of 2010) requires BAR to administer a regulation amnesty process for consumers who own a vehicle that is incorrectly titled.
- Assembly Bill 519, Duvall (Chapter, 566, Statutes of 2010) requires anyone who charges for storing vehicles to post a “Towing Fees and Access Notice” at the storage facility. The notice outlines owners’ rights and responsibilities if their vehicle is towed. The bill establishes where the sign must be posted and requires the information posted on the sign be made available to the public.
- Enhanced Fleet Modernization Program regulations allow consumers to retire an eligible vehicle at any time and for any reason. A vehicle no longer needs to fail a Smog Check inspection to qualify for retirement.

BOARD OF BARBERING AND COSMETOLOGY

www.barbercosmo.ca.gov

The Board of Barbering and Cosmetology (Board) licenses and regulates barbers, cosmetologists, manicurists, estheticians, and electrologists, and the establishments they work in. The Board's mission is to ensure the health and safety of California consumers by promoting ethical standards and by enforcing beauty industry laws.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Opened 3,425 complaint cases, an increase of 554 complaints from 2009-10.
- Contracted with a collection agency to collect past due fines from licensed and unlicensed persons.
- Began requesting that the Division of Investigation issue misdemeanor citations to unlicensed operators and establishment owners. The Division issued 15 misdemeanor citations for unlicensed activity on the Board's behalf.
- Conducted 11,445 inspections, 1,601 more than 2009-10 and had 41 immediate suspensions. Board inspectors were able to identify whether these establishments were in compliance with health and safety requirements and provide education to the establishments, as needed. With the increase in inspections conducted, there was an increase in citation fine amounts collected.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

At the Board's urging, the Legislature made several changes to the Barbering and Cosmetology Act in Fiscal Year 2010-11 to clarify various statutes. These were signed into law on January 1, 2011.

These changes:

- Allow the incidental massaging from the fingertips to the elbow or from the toes to the knee during manicures and pedicures, and allow the use of metal smoothers on feet.
- Clarify that unlicensed activity is an administrative violation that may be treated as a misdemeanor.
- Allow the use of air hand dryers in salon handwashing facilities.
- Clarify the Board's authority to accept written appeals to the Disciplinary Review Committee.

BOARD OF BEHAVIORAL SCIENCES

www.bbs.ca.gov

The Board of Behavioral Sciences (Board) licenses and regulates marriage and family therapists, licensed clinical social workers, licensed educational psychologists, marriage and family therapist interns, associate clinical social workers, licensed professional clinical counselors, and licensed professional clinical counselor interns. The Board's mission is to protect Californians by promoting consumer awareness; advocating for improved mental health services; and setting, communicating, and enforcing standards.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Completed the implementation of a new mental health licensure program: Licensed Professional Clinical Counselor. Adopted the national examination, the National Clinical Mental Health Counselor Examination for licensure in California.
- Continued to provide technical assistance to educators seeking to implement the curriculum revisions to the marriage and family therapy education.
- Enhanced its probation monitoring program through changes to the drug testing requirement and incorporating personal meetings with probationers.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- Sponsored Assembly Bill 2191, Emmerson (Chapter 548, Statutes of 2010) which establishes a retired license category for all Board licensees. The change gives licensees the option to retire their license in lieu of an inactive license status or canceling their license. The bill was signed into law on September 29, 2010, and became effective January 1, 2011.
- Sponsored Senate Bill 704, Negrete McLeod, to restructure the Board's examination program on or after January 1, 2013. Requires applicants for licensure as a marriage and family therapist, licensed clinical social worker, or licensed professional clinical counselor to take and pass a California law and ethics examination and clinical examination. This legislation is pending.
- Approved the rulemaking package to require licensed educational psychologists to complete continuing education units as part of the renewal process.
- Approved the rulemaking package to establish fees for the licensed professional clinical counselor licensure program.

CEMETERY AND FUNERAL BUREAU

www.cfb.ca.gov

The Cemetery and Funeral Bureau (Bureau) licenses, regulates, and investigates complaints against California funeral establishments, funeral directors, embalmers, apprentice embalmers, cemetery brokers, cemetery salespersons, cemetery managers, cremated remains disposers, crematories, crematory managers, and the nearly 200 private cemeteries in the State.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Furthered the development of cemetery maintenance standards through the organization of a Cemetery Maintenance Standards Workshop. This was followed by a focus group and then a presentation of the revised draft regulation at the Advisory Committee Meeting held on June 17, 2011. The Bureau is currently finalizing the language based upon stakeholder input in order to proceed with the rulemaking process which will ensure that California licensed cemeteries are adequately maintained.
- Appointed a new seven-member Advisory Committee composed of four industry members and three public members. The Bureau selected Committee members from a diverse and representative mix of geographic regions, licensing and consumer advocacy backgrounds, and professional experience to better serve licensees and consumers.
- Filed a lawsuit against the Funeral Directors Service Corporation (FDSC), the California Funeral Directors Association, Mechanics Bank, and others, based in part over activities uncovered during an audit of the California Master Trust. The lawsuit seeks to take control of the trust away from FDSC and place it in the hands of a receiver, another trustee, or administrator. The Bureau is also asking that the defendants be ordered to pay restitution of all the missing monies, and that the Bureau be given full accountings of all financial transactions of the trust and of the defendants' transactions with the trust since 2000.
- Drafted a new strategic plan outlining the Bureau's goals and objectives through 2014. The strategic plan serves as a guide for the Bureau's major activities over the next three years, allowing licensees and consumers to follow the processes that will make the Bureau a more effective public protection agency.

CEMETERY AND FUNERAL BUREAU

continued

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- Senate Bill 1491, Committee on Business, Professions, and Economic Development (Chapter 415, Statutes of 2010) defines a keepsake urn and requires crematories to use the crematory license number, in addition to a unique number, on the identification disk, tab, or other permanent label for identification of cremated remains (does not apply to keepsake urns if space does not permit). Also repeals Section 8340 of the Health and Safety Code requiring a crematory to be on the grounds of a cemetery in order to be licensed.
- Assembly Bill 4, Miller, deals with human remains and hydrolysis. The Bureau has been closely following this bill since it was introduced December 6, 2010. If passed, it would allow for the practice of alkaline hydrolysis as a new method of disposition of human remains in California, and the Bureau would then be tasked with developing regulations to govern the practice and associated licenses.

CONTRACTORS STATE LICENSE BOARD

www.cslb.ca.gov | www.ChecktheLicenseFirst.com

The Contractors State License Board (CSLB) protects consumers and contractors by regulating California's construction industry through policies that promote the health, safety, and general welfare of the public. CSLB helps ensure construction work is performed in a safe, competent, and professional manner by licensing contractors in 43 classifications. CSLB also works with partner agencies to combat the illegal and unlicensed activity of individuals and businesses that operate in the State's underground economy.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Established credit card payments at CSLB headquarters for renewal and reactivation transactions including re-exams, license and home improvement salesperson renewals, and reactivation. The new feature began in late August 2010 and is Phase I of CSLB's electronic payment project. Contractors who have used the payment method tell CSLB that it is simple and convenient, and that guidance from the computer prompts and written instructions at the front counter are easy to use. Phase II is expected to roll out at headquarters by late 2011 and will provide for 11 different types of CSLB fee transactions.
- Concluded a three-year public education campaign to encourage consumers and homeowners to always "Check the License First" in order to avoid dangerous scams and to make informed choices in matters related to construction.
- Expanded consumer and contractor education through the use of social media sites Facebook and Twitter. Statistics indicate that audience participation has grown each month. Engaging in discussion groups is providing further horizontal reach into the consumer and contracting communities and offers new avenues to distribute CSLB news and information in an instantaneous, viral setting.
- Implemented stop work orders at construction job sites where there is no workers' compensation insurance coverage for employees. This new CSLB authority became effective January 1, 2011, under Business and Professions Code section 7127 and has helped expand CSLB's partnership with local building departments and prosecutors. Enforcing this law protects law-abiding contractors, construction employees, and property owners who have hired a company or individual to provide new construction or home improvement services. Workers' compensation insurance is a business requirement of B&P Code section 7125 and Labor Code section 3700. Without a valid workers' compensation insurance policy, the financial liability associated with worksite injuries could become the responsibility of the injured worker or the property owner. When CSLB issues a stop order, the contractor must immediately stop using employee labor on any of his or her projects until the stop order has been lifted. Failure of a contractor to comply with the stop order is a misdemeanor criminal offense, punishable by up to 60 days in county jail or by a fine of up to \$10,000, or both.

CONTRACTORS STATE LICENSE BOARD

continued

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- Assembly Bill 2305, Knight (Chapter 423, Statutes of 2010) amends existing law to extend until January 1, 2013, the requirement for a C-39 Roofing contractor to obtain and maintain workers' compensation insurance even if he or she has no employees. Requires the suspension of any license that, after January 1, 2011, is active and has had the C-39 Roofing classification removed, but only if the licensee is found by the Registrar of Contractors to have employees and lacks a valid Certificate of Workers' Compensation Insurance or Certification of Self-Insurance.
- Senate Bill 294, Negrete McLeod (Chapter 695, Statutes of 2010) extends the sunset date of CSLB for one year, until January 1, 2012.
- SB 392, Florez (Chapter 698, Statutes of 2010) amends the Beverly-Killea Limited Liability Company Act and Contractors State License Law. Authorizes the issuance of a contractor license to a limited liability company (LLC). Requires the LLC to: (1) maintain liability insurance for \$1 million to \$5 million, the sum of which is dependent upon the number of persons listed on the license; and (2) post a \$100,000 surety bond for labor-related issues. This surety bond is in addition to the \$12,500 license bond required under existing law.
- SB 1254, Leno (Chapter 643, Statutes of 2010) authorizes the Registrar of Contractors to issue a stop work order to any licensed or unlicensed contractor who, as an employer, has failed to secure workers' compensation insurance coverage for his or her employees. Makes a failure to comply with the order a misdemeanor. Requires that employee wages continue to be paid for up to 10 days, during a work stoppage resulting from a stop work order. Allows an employer to request a hearing to protest a stop work order. Also, the bill increases the number of CSLB peace officer positions (from three to 12) that may be designated by the Director of the Department of Consumer Affairs.
- SB 1491 Committee on Business, Professions, and Economic Development (Chapter 415, Statutes of 2010) modifies the method for administering the open book asbestos examination and extends the statute of limitations for filing an action to discipline unlicensed contractors so that it conforms to the statute of limitations for licensees. Action must be brought within four years from the date of the violation or 18 months after the filing of the complaint, whichever is later.

COURT REPORTERS BOARD OF CALIFORNIA

www.courtreportersboard.ca.gov

The Court Reporters Board of California (Board) licenses certified shorthand reporters (CSRs), more commonly known as court reporters, and oversees California's schools of court reporting. CSRs are professionals who provide verbatim transcripts of oral court testimonies, grand jury hearings, depositions, and other legal proceedings. The Board develops and administers the CSR licensing examination as well as disciplines licensees who violate consumer protection laws. By ensuring the competency of court reporters, the Board protects the appeal rights of every consumer. The Board also approves school curriculum, audits school requirements, and responds to complaints of school improprieties regarding student recordkeeping and curriculum standards. In addition, the Board manages the Transcript Reimbursement Fund, which provides minimal or no-cost transcripts to pro bono legal counsel on behalf of indigent clients in civil cases and to indigent pro per litigants as set out in the Pro Per Pilot Project, effective January 1, 2011, through January 1, 2013.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Expanded the Board's commitment to enforcement by graduating two staff members from DCA's Enforcement Academy. To further the Board's strategic plan, a series of organizational changes were made to more efficiently and effectively track complaints, allowing for better transparency of the process to consumers, as well as improved timeliness of services to consumers.
- Increased transparency of government by webcasting Board meetings. Consumers unable to travel to meetings have expressed appreciation at being able to follow the meeting discussions online.
- Revised security procedures for the practical portion of the license exam in response to technological advancements and changes to reporting equipment. Consumers are assured that successful candidates are accurately and fairly tested to ensure a minimum level of competency for entering the workforce.
- Audited licensee database for incorrect and duplicative data, increasing the Board's ability to rely upon statistical trends for forecasting. Better data results in better decisions by the Board in furthering consumer protection.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- Implemented Senate Bill 1181, Cedillo (Chapter 518, Statutes of 2010) which established a pilot project authorizing low-income persons appearing pro se to apply for funds from the Transcript Reimbursement Fund, subject to specified requirements and limitations. The implementation of this pilot project gave increased access to the justice system to those most in financial need by reimbursing covered costs associated with obtaining transcripts.
- Finalized changes to regulations associated with court reporting school curriculum requirements and submitted the package to the Office of Administrative Law for review. Key proposed changes to the regulations include changing the number of hours of academic coursework to more accurately reflect current industry requirements as well as a provision which would expand online delivery of court reporting courses. Online delivery of courses increases the availability to students living outside of major metropolitan areas, an important factor in a state the size of California.

DENTAL BOARD OF CALIFORNIA

www.dbc.ca.gov

The Dental Board of California (Board) is responsible for regulating the practice of approximately 71,000 licensed dental health professionals, which includes dentists, registered dental assistants, registered dental assistants in extended functions, and holders of orthodontic assistant and dental sedation assistant permits. In addition, the Board is responsible for setting the duties and functions of approximately 50,000 unlicensed dental assistants. The Board's mission is to protect and promote the health and safety of consumers of the State of California. Public protection is achieved through licensing standards and vigilant, objective enforcement of the Dental Practice Act.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Prepared and submitted background information and an overview of the Board's programs to the Legislature on October 1, 2010, to begin the sunset review process. Legislation will be enacted that will allow the Board to continue to operate until January 1, 2016, thereby ensuring that the profession of dentistry (dental and dental assisting) will continue to be regulated, the public will continue to be protected, and the employees of the Board will continue to be employed.
- Established a new Investigative Analysis Unit within the Board's Enforcement Program, using funding and positions from DCA's Consumer Protection Enforcement Initiative (CPEI). The unit, composed of one staff manager, two special investigators, and three associate governmental program analysts (AGPA), is focusing on quality of care and criminal conviction cases and will streamline investigative timelines. CPEI also added two sworn Investigators and two special investigators to the field offices, and one and a half AGPA positions to the Discipline Coordination Unit to handle the increase in accusations filed.
- Began notifying licensees (dentists, registered dental assistants, and registered dental assistants in extended functions), for whom no fingerprinting record exists at the Department of Justice, that as a condition of renewal, they must submit evidence that they have completed the electronic fingerprinting process.
- Implemented an automated Investigator Activity Reporting System in the enforcement program to enhance management of cost recovery information and investigative casework.
- Modified the Board's Web site to create a new section devoted to the Dental Assisting Program. Quick hits highlight approved dental assisting courses, dental workforce survey, RDA renewal information, and license verification. This update improves access to dental assisting information for applicants, licensees, and consumers.
- Implemented computer-based testing for the Board's dental law and ethics examination to make it easier for DDS applicants to complete this requirement and qualify for licensure.
- Updated and published a 2011 edition of the Dental Practice Act.

- Contracted with Comira to begin developing the content and structure for portfolio competency examinations as specified in Business and Professions Code sections 1630, 1632, 1632.1, and 1632.6 relating to the portfolio pathway to licensure for dentists.
- Participated in a lecture series to dental students at the University of California, San Francisco and the University of California, Los Angeles. Given in conjunction with the Office of the Attorney General, the sessions provided the undergraduates with a blend of information and real-life anecdotes.
- Held a one-day Dental Consultant Calibration Course in Sacramento to ensure that staff and consultants continue to review cases and submit reports using consistent parameters.
- Held two General Anesthesia/ Conscious Sedation Evaluator Calibration courses, one in Northern California and one in Southern California, to ensure that the Board's evaluators are trained to assess the competency of general anesthesia and/or conscious sedation permit holders.
- Published a newsletter on the Board's Web site.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- Assembly Bill 1524, Hayashi (Chapter 446, Statutes of 2010), effective January 1, 2011, abolishes the clinical and written examination administered by the Board. Once the Board establishes the new program and adopts new regulations, the examination will be replaced with a portfolio examination of an applicant's competence to enter the practice of dentistry. The examination will be conducted while the applicant is enrolled in a Board-approved California dental school program.
- AB 2699, Bass (Chapter 270, Statutes of 2010), effective January 1, 2011, states that until January 1, 2014, healthcare professionals who provide free healthcare services through a sponsored event to uninsured or underinsured people may be exempt from California license requirements if they are licensed in another state. Healthcare practitioners seeking licensing exemption must be authorized to provide services from the applicable licensing board. Licensing boards must adopt regulations specifying application requirements prior to exempting healthcare practitioners.
- Senate Bill 1172, Negrete McLeod (Chapter 517, Statutes of 2010) specifies that individuals or entities contracting with DCA or any board within DCA for services relating to the treatment of license holders impaired by alcohol or dangerous drugs are required to keep records and documents related to the treatment for three years. The bill also specifies that the records and documents are confidential and not subject to discovery or subpoena unless otherwise expressly provided by law. A healing arts board is required to order a licensee to cease practice if the licensee tests positive for any prohibited substance under the terms of the licensee's probation or diversion program. Healing art boards are authorized to adopt regulations to order a licensee who is on probation or in a diversion program to cease practice for major violations or when ordered by the Board to undergo a clinical diagnostic evaluation.

DENTAL BOARD OF CALIFORNIA

continued

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- Senate Bill 540, Price, was introduced in February 2011 and extends the operation of the Board until January 1, 2016, and specifies that the membership of the Board consist of eight practicing dentists, a registered dental assistant, a registered dental hygienist and five public members. The bill also creates a Dental Assisting Council, to be appointed by the Board, to consider matters relating to dental assistants and to make recommendations to the Board.
- The Board's revised Disciplinary Guidelines became effective December 14, 2010. This regulation amended and revised Title 16, California Code of Regulations Section 1018 and the Board's Disciplinary Guidelines to include model language, rationale, and to specify the factors that may be considered by an Administrative Law Judge when determining whether a license should be suspended, revoked, or placed on probation. These regulations will assist the Board and the Attorney General's Office in pursuing enforcement actions against licensees who violate the Dental Practice Act.
- New electronic fingerprint requirements for licensees became effective July 1, 2011. These regulations require licensees to furnish a full set of fingerprints to the Department of Justice and FBI as a condition of renewal, if the licensee was initially licensed prior to 1999 or if an electronic record of the fingerprint submission no longer exists.
- Completed a rulemaking to revise Section 1005 (Minimum Standards for Infection Control) to update the standard precautionary practices necessary to prevent the risk of transmitting infectious diseases in dental healthcare facilities. The regulations become effective August 20, 2011.
- Completed a rulemaking to clarify and place into regulation requirements for dental assisting educational programs and courses for dental assistants, registered dental assistants, registered dental assistants in extended function, orthodontic assistants, and dental sedation assistants and added corresponding educational requirements. The regulations become effective November 11, 2011.
- Completed a rulemaking to provide it with the means to expedite the enforcement process. The CPEI rulemaking package further defines unprofessional conduct and permits the Board to require the examination of an applicant who may be impaired by a physical or mental illness affecting competency. The regulations are anticipated to become effective during 2011-12.
- Proposed language to update the *Dental Board of California Disciplinary Guidelines* with Model Language, Revised 08/30/2010, that is incorporated by reference in Section 1018, by using the uniform standards developed by the Substance Abuse Coordination Committee in probationary orders and to specify that it is the Diversion Evaluation Committee's duty and responsibility to consider the uniform standards contained within the incorporated document in creating treatment rehabilitation plans for licensees entering the impaired licentiates program.

DENTAL HYGIENE COMMITTEE OF CALIFORNIA

www.dhcc.ca.gov

The Dental Hygiene Committee of California (DHCC) is responsible for licensing three categories of dental hygienists who assist and support dentists practicing in California: registered dental hygienist, registered dental hygienist in alternative practice, and registered dental hygienist in extended functions. DHCC develops and administers written and clinical licensing examinations, conducts occupational analyses of the various professional categories, and evaluates educational courses. DHCC also participates in outreach and support of the dental community with the goal of ensuring the highest quality of oral healthcare for all Californians.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Created and adopted DHCC's strategic plan approved September 26, 2010.
- Completed the newly developed registered dental hygiene alternative practice law and ethics examination.
- Continues to develop the registered dental hygiene law and ethics examination.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- Establishment of the new retroactive fingerprint regulations that require licensees licensed prior to 1994 be electronically fingerprinted.
- Pursuit of the cite-and-fine, substance abuse, and disciplinary guidelines language to continue through the regulatory process.

BUREAU OF ELECTRONIC AND APPLIANCE REPAIR, HOME FURNISHINGS AND THERMAL INSULATION

www.bearhfti.ca.gov

The Bureau of Electronic and Appliance Repair, Home Furnishings and Thermal Insulation (Bureau) licenses, registers, and regulates nearly 39,000 businesses serving California consumers in industries involving appliance, electronic and computer repair, service contracts; manufacturers, importers, retailers, upholsterers, sanitizers, and supply dealers providing home furnishings products; and thermal insulation manufacturers providing thermal insulation products. The Bureau's licensure program establishes minimum standards for entry into the various professions and establishes requirements designed to maintain or enhance licensee knowledge and ensure consumer protection. The Bureau also maintains a vigorous enforcement program which is designed to protect consumers, minimize substandard practice, and discipline licensees as warranted. Routine industry inspections and advisory events are conducted to promote consumer protection, maintain a fair and competitive marketplace, and provide educational opportunities to industry stakeholders and licensees.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Continued to educate industry representatives by conducting informational visits to educate and reduce potential violations. Field visits focused on newly licensed or registered businesses.
- Increased the number of field visits and inspections to businesses by improving efficiencies despite challenges with furloughs, staff vacancies, and budget constraints.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- Passage and implementation of Senate Bill 2111, Smyth (Chapter 543, Statutes of 2010) which impacted regulation of the service contract industry by allowing expanded roles for administrators and companies outside of the retail chain of distribution. It also expanded the regulation to include accessories for electronic equipment and appliances, and removed the cap for incidental payments.
- Successfully promulgated regulations which exempted three juvenile products from complying with flammability regulations. The three products are strollers, infant carriers, and nursing pillows.

The State Board of Guide Dogs for the Blind (Board) licenses and regulates schools and instructors operating in California that train and supply guide dogs for the blind. The mission of the Board is to ensure the quality of the guide dog industry by protecting, promoting, and educating guide dog users, instructors, schools, and the public in order to enhance the lives of blind or visually impaired individuals.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Continued a public awareness campaign regarding dog attacks on guide dogs. Added tip sheets for consumers in English and Spanish, tip sheets for first responders, and tip sheets for veterinarians.
- Partnered with the U.S. Department of Justice and Disability Rights California on What Is a Service Animal and Why You Need to Know. The event raised awareness of updates to the Americans with Disabilities Act, particularly the change in the definition of service animal. The event garnered more than 1,000 hits on the webcast on the day of the event. Attendees included those in the guide dog user community, law enforcement, business community, and State and local government.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- Senate Bill 543, Price, extends the sunset review date of the Board from 2011 to 2013.
- Senate Bill 944, Senate Business Professions and Economic Development Committee, makes nonsubstantive changes to the Guide Dog Act.
- Amended the following sections of Title 16, California Code of Regulations: 2260 (Completion of Requirements for License as Instructor); 2266 (Apprentice Standards; Minimum Instruction); 2282 (Preliminary Training of Dogs); and 2282.1 (Required Training) These changes do the following:
 - Better define experience and make clear to whom verification must be provided.
 - Delete the requirement that an apprentice has had one year of actual experience in working with the training of guide dogs.
 - Specify that an instructor shall have verified that the guide dog meets the requirements set forth in section 2282.
 - Clarify the required training for guide dogs and add four additional competencies through training and testing.
- Pursued citation-and-fine authority, clarified regulatory definitions, and made minor technical changes via regulation.

LANDSCAPE ARCHITECTS TECHNICAL COMMITTEE

www.latc.ca.gov

The Landscape Architects Technical Committee (Committee) has operated within the California Architects Board since 1999. The Committee licenses and regulates the practice of more than 3,500 landscape architects in California, ensuring licensees meet competency requirements through examination, licensing, and enforcement.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Completed the Committee's 2010-11 sunset review process. The Committee completed its sunset review report and submitted it to the Senate Business, Professions, and Economic Development Committee on September 30, 2010. LATC's hearing was held on March 21, 2011 to address any concerns, and a written response was submitted prior to the 30-day deadline. If approved by the Legislature, Senate Bill 543, Price, will extend the Committee's sunset date until January 1, 2016.
- Completed the examination development process for the California Supplemental Examination. The new examination will be implemented on August 1, 2011.
- Converted all of the Committee's meeting materials to an electronic format. The change allows the materials to be readily available to the public on the Committee's Web site prior to a meeting and saves the staff time and resources.
- Conducted seven outreach presentations. These presentations covered pathways to licensure, benefit of licensure, eligibility requirements for the Landscape Architect Registration Examination, enforcement process, and information about the Committee's Web site. The Committee collected survey feedback from these presentations to assess their quality and effectiveness.
- Strengthened the Committee's enforcement program by adding a 0.4 position.

MEDICAL BOARD OF CALIFORNIA

www.mbc.ca.gov

The Medical Board of California (Board) protects consumers by licensing and regulating physicians. Through its licensing program, the Board sets standards for physician licensure, reviews applications for licensure, and evaluates and approves certain medical education programs. Its enforcement program investigates complaints against physicians and imposes discipline against them if necessary. The Board also provides consumers with helpful information, including consumer guides on a variety of healthcare topics, licensing, and disciplinary information relating to physicians.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Saw an increase in complaints of about 50 per month (up to 7,122 as of June 30), which the Board attributes to the new Notice to Consumers regulation, which became effective June 27, 2010. During 2009-10, the Board received 6,539 complaints. The Notice to Consumers regulation, mandated by Business and Professions Code section 138, requires physicians in California to post a notice to inform their patients that they are licensed by the Medical Board of California. The sign must include the Board's contact information and tell consumers where to go for information or to complain about California medical doctors.
- Expanded efforts by the Board's licensing outreach and education program to meet with more teaching hospitals and physician recruiters. Board statistics now report that these efforts substantially reduced questions and problems applicants were experiencing when applying for licensure. This resulted in a more streamlined application process, has enabled staff to consistently maintain a current status of licensing application reviews without using overtime hours, and has ensured applicants receive their licenses in order to continue in training programs in California.
- Initiated a new project to clean up and validate physician and surgeon e-mail addresses. The Board realizes the value of reaching physicians immediately to disperse important and sometimes emergency, health-related information that may affect their practice. Physicians voluntarily provide their e-mail addresses and the Board validates and confirms them for accuracy. After e-mail blasts are sent, staff quickly review rejected addresses and delete them from the system. This past fiscal year, the Board expanded the blasts to notify licensees and interested parties that the Board's quarterly newsletter is posted on its Web site. These newsletter alerts are sent to approximately 114,360 physicians, doctors of podiatric medicine, and others. The Board only mailed 30,000 copies to individuals who have not provided an e-mail address, saving about \$50,000 per quarterly issue. Additionally, the Board partnered with the University of California, San Francisco, the Department of Health Care Services, the California Department of Public Health, and other health-related entities to share their valuable and time-sensitive information to its licensees through Board-initiated e-mail blasts – a win/win situation.

MEDICAL BOARD OF CALIFORNIA

continued

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- Assembly Bill 583, Hayashi (Chapter 436, Statutes of 2010) requires healthcare practitioners to disclose their name, license type, and highest level of academic degree to their patients in their office or in writing in at least 24-point type in a specified format. It also requires physicians and surgeons, including osteopathic physicians, to disclose the name of their certifying board or association.
- Assembly Bill 1767, Hill (Chapter 451, Statutes of 2010) a Board-sponsored bill, requires the Office of the Attorney General to provide representation to a licensed physician who provides expertise to the Board in the evaluation of the conduct of a licensee when, as a result of providing the expertise, the physician is subject to a disciplinary proceeding undertaken by a specialty board of which the physician is a member. It also extends the sunset date of the two members of the Health Professions Education Foundation that are appointed by the Board, from January 1, 2011, to January 1, 2016.
- Assembly Bill 2699, Bass (Chapter 270, Statutes of 2010) exempts healing arts healthcare practitioners, who are licensed and certified in other states, from California state licensure for the purposes of providing voluntary healthcare services to uninsured and underinsured Californians on a short-term basis in a sponsored event. It requires each sponsored event to be no longer than 10 days and the sponsoring entity must be approved and must be a nonprofit entity or a community-based organization. It requires each board to notify the sponsoring entity within 20 calendar days if the request is approved or denied (using specified requirements). It requires the healthcare practitioner to submit to the appropriate board, on a form prescribed by each board, a request for authorization to practice without a license. This law has a sunset date of January 1, 2014. The Board is also adopting regulations to implement this bill.
- Senate Bill 700, Negrete McLeod, (Chapter 505, Statutes of 2010) specifies that peer review is the process in which the basic qualifications, staff privileges, employment, outcomes, and conduct of licensees are reviewed to determine if they may continue to practice in the facility and if so, under what parameters. It clarifies that an 805 report must be filed within 15 days from the date when a peer review body denies or rejects a licensee's application for staff privileges or membership for a medical disciplinary cause or reason; a licensee's staff privileges, membership, or employment are revoked for a medical disciplinary cause or reason; restrictions are imposed, or voluntarily accepted, on staff privileges, membership, or employment for a total of 30 days or more within any 12-month period for medical disciplinary reasons; a licensee resigns or takes a leave of absence from staff privileges, membership or employment; a licensee withdraws or abandons his or her request for renewal of staff privileges, membership, or employment after receiving notice of a pending investigation initiated for a medical disciplinary cause or reason after receiving notice that his or her application for staff privileges,

membership, or employment is denied or will be denied for a medical disciplinary cause or reason; and, when a summary suspension of staff privileges, membership, or employment is imposed for a period in excess of 14 days. It also requires an 805 report to be maintained electronically for dissemination for a period of three years after receipt. This bill adds that minutes or reports of a peer review are included in the documents that the Board may inspect. This bill prohibits the Board from disclosing to the public any peer review summaries completed by a hospital if a court finds that the peer review was not conducted in good faith. Lastly, this bill requires the Board to remove from the Board's Web site any information concerning hospital disciplinary action that is posted if a court finds that the peer review was not done in good faith (the licensee must notify the Board of that finding). It also requires the Board to post a fact sheet on the Internet that explains and provides information on 805 reporting.

- Senate Bill 1172, Negrete McLeod (Chapter 517, Statutes of 2010) requires all healing arts boards under the Department of Consumer Affairs, except the Board of Registered Nursing (BRN) to order a licensee to cease practice if the licensee tests positive for any substance that is prohibited under the terms of the licensee's probation or diversion program. This bill allows healing arts boards (except BRN) to adopt regulations authorizing the boards to order a licensee to cease practice for major violations or when ordered to undergo a clinical diagnostic evaluation. This bill prohibits an order to cease practice pursuant to this bill from being governed by the Administrative Procedures Act, and states that the order shall not constitute a disciplinary action. The Board is revising its disciplinary guidelines through the regulatory process to include the cease practice requirements.

NATUROPATHIC MEDICINE COMMITTEE

www.naturopathic.ca.gov

Naturopathic medicine is one of the oldest continuously licensed healthcare professions in this country. The Naturopathic Doctors Act defines naturopathic medicine as “a distinct and comprehensive system of primary healthcare practiced by a naturopathic doctor for the diagnosis, treatment, and prevention of human health conditions, injuries, and disease.” Naturopathic doctors are primary care providers who use a variety of treatments utilizing water therapy, herbs, supplements, vitamins, amino acids, homeopathics, hormones, massage, and pharmaceuticals, to treat patients.

The Naturopathic Medicine Committee (Committee) was established October 23, 2009, under the Osteopathic Medical Board of California. Originally formed as the Bureau of Naturopathic Medicine, it began licensing naturopathic doctors in January 2005. The Committee ensures that California’s naturopathic doctors meet educational and competency standards for licensure. The Committee licenses and regulates naturopathic doctors as well as investigates complaints while providing consumers and other regulatory agencies with licensing and disciplinary information.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010–11

- Developed its first strategic plan. This document represents the first time that the Committee has been allowed to create its own plan since becoming a self-determining healing arts regulatory entity. The plan is a blueprint for the Committee in the areas of licensing, enforcement, legislation, administration, and education and sets goals in each area.
- Created its first newsletter, called *Natural News*. The inaugural publication featured a review of new laws, a list of Committee goals, and informative articles. The newsletter is intended to create another line of communication between the Committee and its licensees as well as with the public. The newsletter is available on the Web site.
- Enhanced enforcement policies and procedures in order to comply with the latest departmental standards and legislative requirements. Staff training precipitated more efficient procedures, enhancing response time to consumers and licensees in matters of public safety.
- Enhanced the Committee’s Web site by upgrading the display of the California Code of Regulations as it applies to the Naturopathic Doctors Act. The new look-up makes it easier to find specific sections, thus enhancing the accessibility of those regulations to consumers and licensees.

NATUROPATHIC MEDICINE COMMITTEE

continued

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010–11

- Senate Bill 1050, Yee (Chapter 143, Statutes of 2010) gives the Committee sole responsibility for implementation of the Naturopathic Doctors Act; it changes the composition of the Committee to include five licensed naturopathic doctors, two licensed medical doctors, and two public members; and it authorizes the Committee to appoint an executive officer and other officers and employees as necessary. Self-determination allows the Committee staff to develop policies and procedures to be more responsive to the needs of licensees and consumers.
- SB 1246, Negrete McLeod (Chapter 523, Statutes of 2010) adds licensed naturopathic doctors to the category of healthcare providers who may act as laboratory directors and perform clinical laboratory tests or exams that are classified as waived (CLIA waived tests). It allows naturopathic doctors to perform routine laboratory tests in their office thus improving patient care and allowing quicker treatment. The bill also created the position of naturopathic assistant and authorizes those assistants to perform certain medical procedures and technical support services under the supervision of a licensed naturopathic doctor. Creating the classification of naturopathic assistant creates new job opportunities in each doctor's office and frees doctors from having to personally perform all office procedures, allowing them to see more patients and to provide a higher level of service to consumers.
- Division 40 of Title 16, California Code of Regulations was modified to reflect the change from the Bureau of Naturopathic Medicine to the Naturopathic Medicine Committee, changing the name, the address, and replacing "bureau chief" with "committee, executive officer, or designee." The changes were deemed non-substantive by the Office of Administrative Law.

CALIFORNIA BOARD OF OCCUPATIONAL THERAPY

www.bot.ca.gov

The California Board of Occupational Therapy (Board) licenses and regulates occupational therapists and occupational therapy assistants. Occupational therapy practitioners provide important habilitation, rehabilitation, education, and health-promoting services to people who, because of illness, injury, disease, disorder, condition, impairment, disability, activity limitation, or developmental or psychological impairment, need specialized intervention to regain, develop, or build the skills necessary for independent living, improved well-being, and quality of life. Occupational therapy addresses the physical, cognitive, psychosocial, sensory, and other aspects of performance in a variety of contexts to support engagement in everyday life activities.

MAJOR ACCOMPLISHMENTS FOR FY 2010-11

Prioritized complaints and focused on reducing the number of pending complaints and improving processing times, in keeping with DCA 's Consumer Protection Enforcement Initiative.

- Experienced a 173 percent increase in the number of complaints received in 2010-11 compared to the average number of complaints (from 395 to 683) received in the two prior years.
- Reduced complaint processing times from receipt of complaint to completion of the investigation by nearly 55 percent. In 2009-10, the average number of days was 253; this number reduced to 140 days in FY 2010-11.
- Reduced the number of complaints pending investigation by 31% percent. The prior fiscal year ended with 202 complaints pending investigation; this number was reduced to 139.

CALIFORNIA BOARD OF OCCUPATIONAL THERAPY

continued

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- The Board was the first healing arts board to approve regulatory language which would incorporate the newly developed Uniform Standards Regarding Substance Abusing Healing Arts Licensees, consistent with the requirements of Senate Bill 1441, Ridley-Thomas (Chapter 548, Statutes of 2008). The Board also took a proactive role in consumer protection by increasing the frequency of testing for licensees on probation for a substance abuse/use issue.
- The Board added and amended several regulations, including:
 - Added a new definition for Level II fieldwork educator.
 - Amended the application process for advanced practice services (eliminated the statement of learning component and reduced the requirements for candidates who completed coursework pre-approved by the Board) and amended the credentials and qualifications for supervisors.
 - Imposed further restrictions on limited permit holders.
 - Clarified the use of specified initials, which require licensure in California.

CALIFORNIA STATE BOARD OF OPTOMETRY

www.optometry.ca.gov

The California State Board of Optometry (Board) regulates the practice of optometry through licensing and enforcement. The Board's mission is to serve the public and optometrists by promoting and enforcing laws and regulations which protect the health and safety of California's consumers and to ensure high quality care. The Board requires continuing education so that licensees can remain current on emerging trends and industry changes and conducts public outreach to inform consumers about the eye and vision care programs and services available to them.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Conducted outreach about the dangers of purchasing cosmetic contact lenses without a prescription from unlicensed dispensers. Educational letters were sent to unlicensed dispensers to stop the sale of the lenses, a press conference covered by local media was held at a Halloween store to educate the public, and a Halloween flier was created and distributed to California middle school students who are considered to be the target audience for unlicensed dispensers.

The Board also met with the Northern California Consumer Protection Committee to educate district attorneys regarding this under-reported but prevalent issue. This accomplishment meets the Board's strategic goals related to education, outreach, and enforcement. Consumers benefit greatly because they are being protected from unlicensed activity and licensees are encouraged to report unlicensed dispensers to assist the Board in its enforcement efforts.
- Developed a new logo for the Board as part of the Board's strategic plan. The redesign, completed in November 2010, was done to modernize the Board's look and to rebrand the Board as a leading healthcare profession board that continuously provides consumers and optometrists with effective, collaborative, and proactive services.
- Updated the Board Web site to simplify of navigation for consumers, licensees, and staff. These changes meet the Board's outreach and education goals and benefits consumers, licensees, and Board staff. Improvements include:
 - Added a "What's New" section on the home page with the latest information on the Board's activities.
 - Redesigned icons for the Board's expert witness recruitment, customer satisfaction survey, and mailing list to be more eye-catching and modern.
 - Added a citations and disciplinary actions page to inform the public and increase consumer protection regarding licenses on probation, pending accusations against licenses, surrendered licenses, and other public enforcement actions.
 - Redesigned meetings, forms/publications, laws/regulations, and other pages for easier navigation.
- Improved the Board's Probation Monitoring Program as part of the Board's strategic plan. Improvements include: the creation of pre-orientation packets, the use of more effective interviewing skills, creation of compliance interviews, implementation of drug testing through Phamatech,

CALIFORNIA STATE BOARD OF OPTOMETRY

continued

an update of probation terms and conditions including those related to substance use pursuant to SB1441, Ridley-Thomas (Chapter 548, Statutes of 2008) in the Board's Disciplinary Guidelines, and improved techniques on how to respond to violations.

These changes protect consumers by ensuring each probationer is held to every condition. Licensees on probation will also benefit because they will be provided with more, much-needed guidance to complete their probation.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- Successfully implemented glaucoma certification requirements through the regulatory process effective January 8, 2011. This action meets the Board's strategic goals related to regulations, and benefits licensees and Board staff by providing a streamlined process for a certification in high demand by California optometrists. Also, consumers will benefit because the implementation of this regulation increases access to care.
- Updated continuing education (CE) requirements through the regulatory process to increase optometric CE opportunities such as the ability to obtain CE units for attending Board meetings and taking a course to receive CPR certification. This action meets the Board's strategic goals related to licensing and regulations by ensuring that California's optometric CE opportunities are current and in line with other states. Licensees and consumers benefit because a variety of CE improves the practice of optometry by keeping optometrists at the top of their profession.
- Updated guidelines for infection control in optometric practice through the regulatory process pertaining to proper hand hygiene, use of personal protective equipment, handling sharp instruments and disinfection requirements. This action meets the Board's strategic goals related to regulations, consumer protection, and outreach by ensuring that optometrists are aware of what is required of them by law. Consumers will benefit greatly from this added clarity regarding infection control.
- Created and sponsored Assembly Bill 2683, Hernandez (Chapter 604, Statutes of 2011). The bill became effective January 1, 2011, and establishes requirements for optometrists to practice in health facilities such as skilled nursing homes and intermediate care facilities. The Board conducted outreach to its licensees regarding this new law by writing an informational article in the California Optometric Association's 2010 September/October newsletter. This bill benefits licensees in this type of practice by allowing them to treat patients at multiple locations without having to notify the Board of every single location they visit. This exemption only applies if all the conditions described in the bill are met. The bill benefits consumers by increasing access to care and meets the Board's strategic goals related to legislation.

OSTEOPATHIC MEDICAL BOARD OF CALIFORNIA

www.ombc.ca.gov

The Osteopathic Medical Board of California (Board) oversees the practice of medicine by osteopathic physicians and surgeons by enforcing the Osteopathic Act and those portions of the Medical Practice Act identified as Article 12 (commencing with section 2220), of Chapter 5 of Division 2 of the Business and Professions Code. Emphasizing the interrelationship of the body's nerves, muscles, bones and organs, doctors of osteopathic medicine consider the whole person to prevent, diagnose, and treat illness, disease, and injury.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Supported the previously approved Budget Change Proposal (2009-10) with an application for a hiring freeze exemption in an effort to hire additional staff.
- Revised the Board's strategic plan with added user-friendly online access.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- Supported Senate Bill 1050, Yee (Chapter 143, Statutes of 2010) which increases public member representation on the Board by two members.

CALIFORNIA STATE BOARD OF PHARMACY

www.pharmacy.ca.gov

The California State Board of Pharmacy (Board) protects consumers by licensing and regulating all aspects of the practice of pharmacy in California, including pharmacists, the pharmacies, and prescription drugs and devices. The Board also regulates drug wholesalers, specialized facilities, and other practitioners such as pharmacist interns and pharmacy technicians. The Board licenses more than 130,000 individuals and firms in 25 programs, and administers and enforces 15 additional regulatory programs.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Co-hosted a day-long seminar with the U.S. Drug Enforcement Administration on preventing drug thefts for which participants earned continuing education credit. Prescription drug abuse is a major societal problem, ranking only behind marijuana use as illegal drug abuse. Reported cases involving prescription drug thefts and diversion from pharmacies increased more than 45 percent from 2008. Future presentations are planned.
- Participated in national forums seeking to preserve the integrity of the nation's drug supply. The work of the Board has made California the leader in this effort, with Board-sponsored laws that will ensure that adulterated, counterfeit, illegally imported, or stolen drugs do not enter the drug supply undetected. These requirements were explained in various public forums as pharmaceutical companies institute steps to comply with the laws that take effect over a staggered basis from 2015-17.
- Participated in an intensive review of the 2008 heparin contamination crisis which killed at least 81 patients despite widespread recalls. In this case the Board's efforts via site inspections of all 533 California hospitals identified failures in the recall system with recalled heparin found in nearly 20 percent of these facilities. During the year, the Board released notifications to Board licensees on more than 100 separate manufacturers' recalls of drugs that had been shipped to pharmacies.
- Continued work with licensees and other stakeholders on processes to ensure patients have a means to dispose of unwanted pharmaceuticals in ways that will not harm the environment but will not lead to drug diversion. This included dissemination of California's model guidelines for the take back of prescription medication, education of licensees and others, and planning for better solutions.
- Increased by 100 percent the number of inspector positions to reduce complaint investigation time, and in recognition of the major growth in the number of Board licensees over the years. These investigators are licensed pharmacists who inspect and investigate licensees and applicants for this Board.
- Conducted a job analysis of the pharmacist profession in California to validate the California Practice Standards and Jurisprudence Examination for Pharmacists, and by the year's end, modified the content of this examination to reflect the new analysis.
- Created an online video on how to purchase drugs safely over the Internet and how and why to avoid Web sites illegally selling prescription medicine.

CALIFORNIA STATE BOARD OF PHARMACY

continued

- Assessed the performance of accrediting agencies for pharmacies that compound sterile injectable drug products, which requires very stringent standards to ensure the products are not harmful. The identified deficiencies were discussed with each of the four accrediting agencies during public meetings to upgrade the quality of their assessments and accrediting processes.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010–11

- Sponsored enacted legislation to require completion of 16 units in a school of pharmacy for any pharmacist applicant who fails either licensure examination four times. The units must be completed before the applicant can retake the examination.
- Sponsored legislation during the 2011 session that would aid the Board in achieving DCA's Consumer Protection Enforcement Initiative goals to reduce the time within which Board licensees must provide records upon demand of Board inspectors, or report drug diversion or firings for pharmacy employees for certain violations to the Board.
- To improve patient understanding and compliance with prescribed medication therapy, the Board promulgated the nation's first patient-centered prescription drug container labeling requirements that dedicate at least 50 percent of any label to the information most important to a patient, in a specific order and enlarged type size. The regulation also requires oral interpreter services for any patient with limited English speaking skills (California Code of Regulations, Title 16, section 1707.5).
- Secured enhanced enforcement sanctions for those who compromise the Board's pharmacist licensure examinations (California Code of Regulations, Title 16, sections 1721, 1723.1).
- Implemented major public protection requirements for all pharmacies that compound medication for patients (California Code of Regulations, Title 16, sections 1735 et seq., 1751 et seq.).
- Ensured the Board receives the fastest possible notice of the arrests and convictions of pharmacists by ensuring that the Department of Justice (DOJ) has electronic fingerprints on file for all pharmacists. Pharmacists whose fingerprints were done before 2001 or for whom a record of fingerprints does not exist at the DOJ are now required to be reprinted to ensure electronic matching rather than a manual matching process by the DOJ (California Code of Regulations, Title 16, section 1702).
- Aided pharmacies and wholesalers in complying with complex pharmacy law by updating the survey documents used for mandatory self-assessment of Board-licensed premises (California Code of Regulations, Title 16, sections 1715, 1784).
- Ensured that applicants with disciplinary actions in other states have these actions available for review by the Board before licensure by requiring National Practitioner Data Bank background reports as an application requirement (California Code of Regulations, Title 16, sections 1783.5, 1727.2).

PHYSICAL THERAPY BOARD OF CALIFORNIA

www.ptbc.ca.gov

The Physical Therapy Board of California (Board) licenses and regulates physical therapists and physical therapist assistants. The Board was created to protect the public from incompetent, unprofessional, or criminal practices in the field of physical therapy.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010–11

- Established course-approving agencies and began conducting audits of documentation of coursework taken by physical therapists and physical therapist assistants requesting renewal of their licenses, in accordance with the new Continuing Competency Regulation, sections 1399.90-1399.99, Title 16, California Code of Regulations. The Continuing Competency Regulation is expected to provide the public with assurance that renewing practitioners are taking the latest educational courses in the field.
- Established performance measures to ensure the Board is meeting its enforcement goals and targets as required by DCA's Consumer Protection Enforcement Initiative. Requirements are in effect to ensure that DCA's boards are processing consumer complaints in a responsive and timely manner.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010–11

- Proposed changes to section 1398.4, Title 16, California Code of Regulations to establish authority for the Executive Officer, the Assistant Executive Officer, or another designee to dispatch Board business in connection with investigative or administrative proceedings, allowing faster and more efficient complaint resolution. Additionally, the Board proposed section 1399.23 requiring actions against sex offenders, and section 1399.24 further defining unprofessional conduct of a licensee. Both proposals will strengthen the Board's ability to protect the public.
- Proposed changes to section 1398.26.1, Title 16, California Code of Regulations adopting a coursework tool for the evaluation of a physical therapist and physical therapist assistant's education. By adopting the use of the tool recognized by 49 other states, the Board will make it easier for physical therapists and physical therapist assistants seeking licensure in other states. The change will also make it easier to evaluate whether the education of a foreign-educated physical therapist is equivalent to that of a U.S.-trained physical therapist.

PHYSICIAN ASSISTANT COMMITTEE

www.pac.ca.gov

Physician assistants are highly skilled professionals who work under the supervision of a physician and provide medical care to patients. The Physician Assistant Committee (Committee), part of the Medical Board of California, protects consumers by licensing qualified physician assistants and taking enforcement actions against physician assistants who violate the provisions of the applicable laws and regulations.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Began requesting that applicants who have held other healthcare licenses self query with the National Practitioner Database. This report discloses if the applicant was disciplined by another licensing agency throughout the United States. (Goal 1, Licensing Objective)
- Increased administrative efficiency by scanning and posting on the Committee's Web site meeting agenda information and documents to ensure members and the public can review them before the meeting. (Goal 3, Education and Outreach; Goal 4, Administrative Efficiency)
- Increased licensing efficiency by e-mailing deficiency and licensing letters to applicants who choose to provide an e-mail address on their application. Applicants who do not provide their e-mail address will continue to receive notifications by mail. The new procedure saves postage, handling, and paper costs, in addition to providing applicants with information regarding their pending application on a more timely basis. (Goal 1 and 4, Licensing and Administrative Efficiency Objectives)
- Began posting Quarterly Performance Measurements for the enforcement program on PAC Web site. This reporting format provides consumers and licensees with information regarding the Committee's enforcement program. (Goal 3, Education and Outreach)
- Developed a PowerPoint presentation to use when giving presentations to physician assistant program students about the licensing process and practice issues. With the State's travel restrictions, this PowerPoint was useful in giving a presentation via teleconference to students at the Stanford program in spring 2011. (Goal 3, Education and Outreach; Goal 4, Administrative Efficiency)

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- California Code of Regulations Title 16, section 1399.557, approved effective January 19, 2011, states that licensees who are required to participate in the diversion program shall pay the full amount of the monthly participation fee charged by the contractor. Licensees voluntarily enrolling in the diversion program shall pay 75 percent of the monthly participation fee charged by the contractor.

CALIFORNIA BOARD OF PODIATRIC MEDICINE

www.bpm.ca.gov

The California Board of Podiatric Medicine (Board) licenses 2,000 podiatric physicians and enforces the Medical Practice Act through its consumer protection law enforcement. The Board annually licenses all postgraduate podiatric medical residents and reviews all California residency training programs before approval. The Board is the only doctor-licensing board in the nation to date to implement a continuing competency requirement beyond continuing education. This reform, long recommended in the medical licensing literature, is key to the Board's strategic goal of preventing patient harm.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010–11

- Maintained the nation's model continuing competency program, which contributed to a record low number of consumer complaints in the 2010-11 fiscal year — 90. That is less than a third of the complaints the Board received prior to pioneering this recommendation from the medical licensing literature in 1999.
 - The Director of the University of California San Diego Physician Assessment and Clinical Education Program commented, "You will never know how much we respect the California Board of Podiatric Medicine for being the first Board of any discipline, to our knowledge, to have made a true Maintenance of Competence requirement a legal requirement of licensure. . . . Your Board has done the right thing, and we congratulate you. Your Board will be recounted as heroes in the history books, and I mean this honestly and literally."
 - Board President Doctor Karen L. Wrubel, DPM, explained, "Our Continuing Competence initiative is working because podiatric physicians embraced and internalized it as a higher standard of our own. That's what it means to be a professional—holding oneself to a higher standard and striving for continual improvement. As doctors, it is what we should expect and demand of ourselves. For the Board of Podiatric Medicine, prevention of patient harm is a major part of our public trust."
- Published *You and Your DPM*, another in a series of consumer information brochures prepared with assistance from DCA's Office of Publications, Design & Editing. Subtitled *Highly trained specialists keep Americans on the move*, the pamphlet provides background on this small but elite medical specialty.

BUREAU FOR PRIVATE POSTSECONDARY EDUCATION

www.bppe.ca.gov

The Bureau for Private Postsecondary Education (Bureau) is responsible for the implementation of the California Private Postsecondary Education Act of 2009, providing oversight of California's private postsecondary educational institutions. Currently, there are approximately 1,500 institutions regulated by the Bureau. California private postsecondary institutions are those institutions that are located in California, provide education beyond high school, and are not public institutions. Many of the institutions governed by the Act are vocational institutions offering skills training for entry-level positions in a variety of industries and trades, and others offer degree programs that are academic in nature such as psychology, computer science, and business.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Established operations, created staff duty statements, and responded to inquiries from the public and educational institutions in the first few months after the Bureau was created, relying on a few loaned staff. Although the Bureau began operation on January 1, 2010, the delayed State budget and hiring freeze prevented the Bureau from hiring staff. In November of 2010, the Bureau received its first exemption from the hiring freeze and brought on eight staff for the licensing unit.
- Processed more than 700 applications for approval to operate, made substantive changes to approvals, and verified exemptions. These tasks were completed from the time the staff began with the Bureau the week of Thanksgiving 2010 through the end of the fiscal year.
- Closed 479 complaints by working with DCA's complaint mediation unit and with staff hired in December for the complaint unit.
- Took administrative action against one institution for violations of the Act. Denials and citations are not considered disciplinary actions.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

The Bureau completed three sets of regulations and noticed a fourth set in the last fiscal year.

- The changes necessary to bring the existing regulations in compliance with the new Act were approved by the Office of Administrative Law (OAL) on November 18, 2010.
- The second set of regulations for new sections of the Act pertaining to notices to comply and the Bureau's disciplinary guidelines, was approved by OAL on March 28, 2011.
- The third set of regulations, modifying the existing regulations for the Student Tuition Recovery Fund, was approved by OAL on April 12, 2011.
- The fourth set of regulations regarding emergency decisions, citations and fines, and annual reports was noticed on August 6, 2010.

BOARD FOR PROFESSIONAL ENGINEERS, LAND SURVEYORS, AND GEOLOGISTS

www.pels.ca.gov

The Board for Professional Engineers, Land Surveyors, and Geologists (Board) safeguards the life, health, property, and the public welfare by licensing engineers, land surveyors, geologists, and geophysicists, and helps the public make informed decisions when using their services. It also establishes and enforces regulations and investigates consumer complaints.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Continued to reduce the age of enforcement complaint investigation cases and increase the number of enforcement actions (either formal disciplinary actions or administrative citations). In July 2010, there were 100 complaint investigation cases more than one year old. As of June 2011, there were 86. Referred 52 cases to the Attorney General's Office for formal disciplinary action against licensees and issued 61 final decisions. Issued 71 citations, versus 38 in 2010-11.
- Completed successful sunset review by the Senate Committee on Business, Professions, and Economic Development, allowing the Board to continue protecting and serving the consumers of California through January 1, 2016.
- Initiated action to receive a one-time special fund action augmentation to finance the additional fees required by the National Council of Examiners for Engineering and Surveying (NCEES) to administer the national examination to applicants in California as mandated by law. This action, which was approved, will eliminate financial liability and make certain that the examinations are administered in strict accordance with existing NCEES policy.
- Conducted strategic planning meeting to aid in the development of a new strategic plan. The current plan was adopted May 12, 2011, and will take the Board through 2014. Implementing the current plan will enable the Board to reach its goals such as effectively protecting consumers; promoting its laws and regulations; increasing the number of licensed professional engineers, land surveyors, geologists, and geophysicists; and providing information regarding the practices of engineering, land surveying, geology, and geophysics and the relevance of those professions to consumers and licensees.
- Implemented a requirement for examinees to register on the NCEES Examinee Management System for a unique identification number beginning with the October 2010 examination administration. This move allows the registration process to become standardized among the licensing entities and streamlines the reciprocity process for those individuals seeking licensure in other state boards. Examinees received their examination admission notices and result letters electronically from NCEES which provided a cost savings to the Board and allows applicants to receive their results faster.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- Assembly Bill 1431, Hill (Chapter 696, Statutes of 2010) changed the name of the Board to the Board for Professional Engineers, Land Surveyors, and Geologists and adds one professional geologist or geophysicist member and one public member to the Board. Adding a geologist or geophysicist member to the Board broadens its expertise and input to better address the needs of licensees and consumers.
- Senate Bill 1491, Committee on Business, Professions, and Economic Development (Chapter 415, Statutes of 2010) clarifies the qualifying experience required to become certified as an engineer-in-training. Applicants may now have three years of engineering education, three years of engineering work, or a combination of the two totaling three years.
- Amended sections 404, 424, 425, 428, and 460 of Title 16, California Code of Regulations to define approved and nonapproved engineering and land surveying curricula to clarify the number of years of education credit that may be granted towards the total number of years of qualifying experience needed for licensure as a professional engineer or a professional land surveyor; and to expand the situations in which an applicant for licensure as a professional engineer may obtain a waiver of the Engineer-in-Training/Fundamentals of Engineering examination.
- Amended sections 427.10 and 427.30, of Title 16, California Code of Regulations to adopt new Engagement Record and Reference Forms to be used by applicants for licensure as professional engineers and professional land surveyors and certification as structural engineers. Also adopted new log book as an optional form to be used by applicants for licensure as professional land surveyors to better document their work experience.

PROFESSIONAL FIDUCIARIES BUREAU

www.fiduciary.ca.gov

The Professional Fiduciaries Bureau (Bureau) licenses and regulates nonfamily member private fiduciaries, including conservators, guardians, trustees, and agents under durable powers of attorney. Private fiduciaries provide critical services to vulnerable seniors, persons with disabilities, and children. They manage matters involving these consumers' daily care, housing, and medical needs, and offer financial management services ranging from basic bill paying to estate and investment management.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Completed the sunset review process in March 2011.
- Ramped up enforcement by hiring a retired annuitant to conduct investigations, contracted with an expert consultant, and utilized the DCA's Complaint Resolution Program to address complaints.
- Repaid loans used to start Bureau operations in 2007.
- Developed a three-year strategic plan and established four subcommittees to accomplish the goals of the plan.
- Developed processes and trained staff in the Complaint Resolution Program to help address consumer complaints.
- Trained eight DCA Call Center staff to answer calls for the Bureau.
- Linked DCA's online complaint form to the Bureau's Web site and deleted outdated information on the Web site.
- Utilized DCA's Division of Investigation to handle more sensitive complaints that could require undercover work.
- Conducted outreach to consumers by:
 - Partnering with the Contractors State Licensing Board at Senior Scam Stoppers events throughout the State.
 - Making a presentation to the Vacaville Commission on Aging, which was televised.
 - Being interviewed on TV station KTSF 26 in San Francisco by Self-Help for the Elderly.
 - Presenting at both Northern and Southern Chapters of the Professional Fiduciary Association of California.
 - Speaking to the Sacramento Bar Association, Probate Section, other government agencies, and the California Consumer Affairs Association.
 - Conducting a workshop for the Probate Court Investigator Association in May.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- Filed regulations for the Bureau's cite-and-fine regulations in April 2011.
- Senate Bill 543, Steinberg, will extend the Bureau to 2015.

CALIFORNIA BOARD OF PSYCHOLOGY

www.psychboard.ca.gov

The Board of Psychology (Board) regulates psychologists, registered psychologists, and psychological assistants. The Board protects and advocates for Californians by promoting the highest professional standards through its licensing, regulation, legislation, enforcement, continuing education, and outreach programs. The Board is dedicated to ensuring that psychologists provide competent and ethical services to consumers.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010–11

- Made efforts to operate in an environmentally responsible manner in order to reduce the Board's "carbon footprint" during all phases of operation. One way in which this was accomplished was the elimination of the mailing of printed copies of the Board's newsletter, the *BOP Update*. The newsletter is now only available online.
- Made continued competency and telehealth the primary focus of the Committee on Contemporary and Emerging Issues.
- Approved language incorporating the Uniform Standards related to substance abuse established by the Substance Abuse Coordinating Committee into the Board's disciplinary guidelines.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010–11

- Continuing Education Regulations: The proposed regulations will redefine the Board's continuing education provider approval system to make it consistent with other states and will also streamline the process for compliance monitoring and reporting.
- Delegation of Functions/
Unprofessional Conduct Regulations: The proposed regulations delegate authority to the Executive Officer to order an applicant for licensure to submit to a physical or mental examination, or to approve settlement agreements for revocation, surrender, or interim suspension of a license or registration. The proposal would also amend the title of Article 7 of Division 13.1 from Restoration of Suspended or Revoked Licenses, to Standards Related to Denial, Discipline, and Reinstatement of Licenses and Registrations to provide clarification of the subject matter of the regulations contained within Article 7. This proposal would, in addition to conduct described in Business and Professions Code section 2960, further define unprofessional conduct to prohibit the inclusion of specific provisions in agreements to settle civil disputes, and to also include failure of the licensee or registrant to: provide lawfully requested documents; cooperate with an investigation; report convictions; or report any disciplinary action taken by another licensing entity or authority.

BOARD OF REGISTERED NURSING

www.rn.ca.gov

The Board of Registered Nursing (Board) licenses registered nurses and evaluates them for certification in nursing specialties, including nurse practitioner, nurse anesthetist, nurse midwife, clinical nurse specialist, public health nurse, and psychiatric/mental health nurse. The Board's goal is to protect the health and safety of California's healthcare consumers by overseeing nursing school programs and by ensuring safe practice standards.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Completed and made available the *2010 RN Survey*. The University of California, San Francisco (UCSF) and Board staff worked on the 2010 survey. The Board contracts with the Center for the Health Professions at UCSF to conduct a biennial survey of active and inactive registered nurses in California. The purpose of the surveys is to collect and evaluate nursing workforce data to understand the demographics, education, employment patterns, nurse perceptions of the work environment, reasons for discontinuing work in nursing and plans for future employment. This is the seventh in the series of California RN workforce surveys. The previous ones were conducted in 1990, 1993, 1997, 2004, 2006, and 2008.
- Completed and made available the *2009-10 Annual School Report, Data Summary, Regional Reports, and Interactive Database*. Development of the 2009-10 Board of Registered Nursing School Survey was the work of the Board's Education Advisory Committee, which consists of nursing education stakeholders from across California. UCSF was commissioned by the Board to develop the online survey instrument, administer the survey, and report data collected from the survey. The survey collects data about nursing programs and their students and faculty. This survey has been developed to support nursing, nursing education and workforce planning in California. The Board believes that the results of this survey will provide data-driven evidence to influence policy at the local, state, Federal, and institutional levels.
- Completed and made available *A Study of California Nurses Placed on Probation* report. Nurses put on probation by the Board have been disciplined for behavior that could jeopardize patient health or safety. Analyzing characteristics of these nurses and the likelihood of recidivism can influence Board policies regarding this population of nurses, and address concerns over the presence of these nurses in hospitals and other healthcare settings. The Board commissioned UCSF to research characteristics of these nurses and the outcomes of their probation. This report represents the first effort to describe the demographic characteristics of California RNs on probation, as well as the offenses that lead to probation and recidivism.
- Continued participation in DCA's Consumer Protection Enforcement Initiative. This enforcement model is for all allied health boards regarding best practices to ensure that complaints, investigations,

BOARD OF REGISTERED NURSING

continued

and administrative actions filed by the Attorney General on behalf of the Board; and the administrative hearings held on behalf of the Board by the Office of Administrative Hearings are timely. Additionally, this initiative has given the Board and DCA the opportunity to develop a new integrated IT system.

- Obtained authority to hire special investigators who are on the Board's staff in Northern and Southern California to investigate RN-specific complaint cases.
- Presented the sunset report to the Senate Business, Professions, and Economic Development Committee.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- Amended section 1417, Title 16, of California Code of Regulations to increase the application fee for registered nurses, increase the renewal and penalty fees for registered nurses, nurse midwives, and nurse anesthetists, and to set the application, renewal and penalty fees for clinical nurse specialists. This regulatory action was approved and became effective on December 24, 2010.
- Set the minimum educational standards for Board-approved prelicensure programs whose purpose is to ensure that students who complete those programs have the requisite knowledge, skills, and abilities to practice safely and competently at the entry level. This regulatory action was approved and became effective on October 21, 2010.

RESPIRATORY CARE BOARD OF CALIFORNIA

www.rcb.ca.gov

The Respiratory Care Board (Board) of California licenses and regulates respiratory care practitioners (RCPs). RCPs work under the direction of a physician and specialize in evaluating and treating patients who have breathing difficulties as a result of heart and lung disorders. RCPs also provide diagnostic, educational, and rehabilitation services. The Board protects and serves consumers by administering and enforcing the Respiratory Care Practice Act.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Continued implementing and reviewing process changes consistent with DCA's Consumer Protection Enforcement Initiative to reduce disciplinary case processing times to within 12 to 18 months, and reporting data regularly to DCA.
- Continued working toward efforts to improve application processing times (including a regulation change to take effect in 2012), and get applicants licensed and into the workforce, helping to stimulate the economy, and reporting data regularly to DCA.
- Adopted a policy concerning drug testing frequency (including increased testing to 52-104 times per year) for persons whose licenses have been placed on probation in line with uniform standards developed as a result of Senate Bill 1441, Ridley-Thomas (Chapter 548, Statutes of 2008).
- Initiated a requirement to query out-of-state applicants with the National Practitioner Data Bank to ensure the applicant has not been disciplined in another state before applying for licensure in California.
- Participated in "Transitioning the Respiratory Therapist Workforce for 2015 and Beyond", a professional planning conference hosted by the American Association for Respiratory Care.
- Developed a record retention policy to ensure cost effective and efficient recordkeeping practices, while preserving historical information.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- SB Bill 294, Negrete McLeod (Chapter 695, Statutes of 2010) extended the Board's sunset date through January 1, 2014.
- Initiated a rulemaking action to amend the Board's disciplinary guidelines, citation and fines, fees, the development of standards for discipline where the cause for discipline is related to substance use, and other various regulatory revisions.

BUREAU OF SECURITY AND INVESTIGATIVE SERVICES

www.bsis.ca.gov

The Bureau of Security and Investigative Services (Bureau) licenses and regulates the private security industry. The Bureau has jurisdiction over security guards, proprietary private security employers, proprietary private security officers, private investigators, alarm companies, locksmiths, private patrol operators, and repossession companies and their employees. The Bureau also has jurisdiction over firearm and baton training facilities as well as their instructors.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Received authority and completed training to issue infraction citations and fines to people operating or advertising as unlicensed locksmiths, private investigators, and security companies.
- Began a written exam development workshop with DCA's Office of Professional Examination Resources to create a new examination for repossession agency qualified managers. Representatives of the repossession industry throughout the State participated in the written exam development workshops.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- Regulations authorizing the Bureau to issue unlicensed activity citations and fines was approved by the State and Consumer Services Agency. The regulatory notice was filed with the Office of Administrative Law. The Bureau anticipates the adoption of the regulations during Fiscal Year 2011-12.

SPEECH-LANGUAGE PATHOLOGY AND AUDIOLOGY AND HEARING AID DISPENSERS BOARD

www.speechandhearing.ca.gov

On January 1, 2010, pursuant to Assembly Bill 1535, Jones (Chapter 309, Statutes of 2009) the Hearing Aid Dispensers Bureau and the Speech-Language Pathology and Audiology Board merged to form one regulatory body, the Speech-Language Pathology and Audiology and Hearing Aid Dispensers Board (Board). This Board sets licensing standards and enforces laws governing the practices of the speech-language pathology, audiology, and hearing aid dispensers professions. The primary mission of the Board is to protect California consumers.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Recruited for a newly established position for an in-house special investigator (non-sworn) to handle a majority of the Board's complaint investigations and probation monitoring cases. Having an in-house special investigator drastically reduces the Board's complaint processing timelines as the investigator is trained to identify scope of practice and compliance issues for the professions of speech-language pathology, audiology, and hearing aid dispensing.
- Enhanced enforcement case procedures and defined and implemented internal performance measures for expediting and tracking complaints, investigations, and administrative actions. These performance measures assist the Board in monitoring its responsiveness to California consumers, thereby ensuring timely and appropriate action.
- Implemented new legislation creating the dispensing audiology license type which eliminated the need for an audiologist to hold a separate hearing aid dispensers license provided the audiologist passes the practical hearing aid dispensing examination. The elimination of the requirement for an audiologist to hold dual licenses reduces application paperwork for Board staff and application and licensing fees for dispensing practitioners, and enables qualified and competent audiologists to provide complete hearing healthcare services to the public.

SPEECH-LANGUAGE PATHOLOGY AND AUDIOLOGY AND HEARING AID DISPENSERS BOARD

continued

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- Adopted emergency regulations regarding the application and renewal fees, and the continuing professional development requirements of dispensing audiologists. The new regulations specify mandatory continued professional development for dispensing audiologists and require practitioners to participate in learning experiences that will assist them in staying current and abreast of new information and practice trends in the respective fields of audiology and hearing aid dispensing. The continuing professional development requirements serve as an additional layer of public protection as they ensure licensees are exposed to current and relevant practice information to provide quality patient/client care.
- Proposed new regulations for enhancing the Board's enforcement authority in order to efficiently investigate matters of misconduct that come before the Board and swiftly adjudicate proposed disciplinary settlements. Such provisions protect consumers by enabling the Board to impose appropriate restrictions in a timely matter on licensees who fail to uphold the law.

TELEPHONE MEDICAL ADVICE SERVICES BUREAU

www.dca.ca.gov/tmas

Telephone medical advice is used by some healthcare organizations to better meet the medical needs of their large client populations. Patients may contact their healthcare provider by phone to explain their symptoms and receive immediate advice about the appropriate course of action. This method can reduce the need for patients to visit a doctor or emergency room, thus reducing the cost of healthcare. California licenses a variety of healthcare professionals to ensure high standards and quality care. The Legislature has authorized DCA to bring higher consumer protection standards to the field of telephone medical advice. It is crucial that providers of telephone medical advice are qualified, licensed healthcare professionals. Although some of the healthcare professionals providing telephone medical advice may be located out of state, it is important to note that consumer protection standards are in place to protect California residents.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Visited several registered call centers for the first time since the Bureau has been in existence.
- Received all quarterly reports and verified all providers with their appropriate licensing entity.
- Established a tracking system to maintain receipt of quarterly reports and verification of healthcare profession providers.
- Created a public awareness brochure to provide consumers with information on what telephone medical advice services are. The brochure is available on our Web site.

VETERINARY MEDICAL BOARD

www.vmb.ca.gov

The Veterinary Medical Board (Board) protects consumers and animals through the development and maintenance of professional standards; the licensing of veterinarians, registered veterinary technicians, and veterinary premises; and through diligent enforcement of the California Veterinary Medicine Practice Act.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Worked with DCA's Division of Investigation to prioritize cases and improve case processing times, and worked with DCA to post enforcement statistics and actual cases on the Internet to provide maximum information to the public.
- Enhanced public access to Board meeting documents by creating online links to each document associated with an agenda discussion item.
- Attended outreach events throughout the year to provide access to the public and the profession to Board employees, Board members, and information. Events included the TLC and CARES symposiums for people becoming licensed via reciprocity, dedication of a new shelter for animals belonging to homeless people at Loaves and Fishes in Sacramento, the Doggie Dash (a fundraiser for the Sacramento SPCA), Microchip Day at the State Capitol where more than 300 dogs and cats were given free microchips and low-cost vaccinations, and three meetings of the State association for veterinarians and registered veterinary technicians (RVT) to provide information on the Board's mission, licensing, and enforcement.

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- Assembly Bill 1980, Hayashi (Chapter 538, Statutes of 2010) consolidated the Registered Veterinary Technician Committee and the Multidisciplinary Advisory Committee and added one RVT to the Veterinary Medical Board as a cost-savings and efficiency measure. The bill also created title protection for RVTs to help eliminate any confusion for the public about who is licensed and who is not among staff at veterinary practices.
- Initiated a project to incorporate Senate Bill 1441, Ridley-Thomas (Chapter 548, Statutes of 2008) Uniform Standards, into the Board's disciplinary guidelines and ultimately codify those guidelines and standards into regulations to ensure appropriate discipline for those who have impairment and/or addiction issues that affect their ability to practice veterinary medicine.
- Sections 2086 et seq, Title 16, California Code of Regulations, requiring mandatory reporting of continuing education hours for RVTs to help insure competency in the profession.
- Sections 2010 et. seq, Title 16, California Code of Regulations, requires mandatory, retroactive fingerprinting of licensees for purposes of consumer and animal protection.

BOARD OF VOCATIONAL NURSING AND PSYCHIATRIC TECHNICIANS

www.bvnpt.ca.gov

The Board of Vocational Nursing and Psychiatric Technicians (Board) protects consumers from unprofessional and unsafe licensed vocational nurses (LVNs) and psychiatric technicians (PTs). LVNs and PTs care for California's most vulnerable consumers, from newborns to the frail elderly. PTs also care for mentally impaired and developmentally disabled clients of any age.

The Board regulates LVN and PT educational programs and holds them accountable for the provision of complex scientific theoretical and clinical knowledge that is consistent with the profession, and that results in students' acquisition of the knowledge, skills, and abilities necessary for success on the licensure examination. In so doing, the Board holds programs accountable for the educational preparation of safe and competent practitioners. The Board disciplines incompetent, negligent, and abusive LVNs and PTs. The Board meets with more than 4,000 students annually to provide an overview of the Board's enforcement process and their responsibilities as licensees.

In summary, the Board has jurisdiction over two distinct licensure programs, with separate and distinct statutes and regulations, budget authority, curriculum requirements, licensure examinations, and staff. The Board regulates the largest groups of LVNs and PTs in the nation. The Board clarifies and renders decisions relative to the scope of practice of LVNs and PTs, consistent with applicable statutes, regulations, and current and established professional knowledge and standards. The Board also develops and publishes brochures and information on the Board's Web site to educate consumers about healthcare, utilization of LVNs and PTs, VN and PT programs, consumer rights, and how to file complaints.

MAJOR ACCOMPLISHMENTS FOR FISCAL YEAR 2010-11

- Underwent sunset review. This is a mandated legislative review every four years in order to ensure the Board is performing its statutory responsibilities and meeting the needs of California consumers. Numerous meetings and hearings were held. As a result, Senate Bill 539, Price, extended the Board's authority until January 1, 2016.
- Approved the admission of more than 5,000 more students for new and existing VN and PT programs statewide. The U.S. Department of Labor has projected a 21.5 percent growth in the employment of LVNs between 2008 and 2018. Similarly, a 9.2 percent growth in the employment of PTs is expected between 2008 and 2018.
- Continued to distribute customer service surveys at all public meetings and at the public counter in the Board's Sacramento office. The survey solicits feedback regarding the Board's effectiveness in accomplishing its mission and goals. The information gleaned from these surveys is also used in developing the Board's strategic plan. In Fiscal Year 2010-11, survey results indicated that more than 98 percent of the Board's customers were either very satisfied or satisfied with the Board's performance.
- Continued director forums in both Northern and Southern California. The forums provide directors and faculty of LVN and PT programs with information regarding pending and approved legislation, proposed or approved regulations, current issues in education and practice, licensure examination procedures, and strategies to maximize student achievement and improve program pass rates.
- Began inclusion in the interim online license renewal project in mid-September. This project is being implemented until the conversion to the new DCA information technology system (BreEZe) is operational in 2013. When fully operational, BreEZe will combine and centralize the databases used to license and track licensees. This will allow the Board to do online licensing, resulting in a shorter period of time between the receipt of an application and issuance of the license.

BOARD OF VOCATIONAL NURSING AND PSYCHIATRIC TECHNICIANS

continued

MAJOR LEGISLATION/REGULATIONS FOR FISCAL YEAR 2010-11

- **Consumer Protection Enforcement Initiative:** At its September 16, 2010, Board meeting, the Board approved draft language to implement the Consumer Protection Enforcement Initiative and directed staff to prepare a rulemaking file for notice and comment. These regulations expand the Board's ability to investigate and act on cases in a timely manner, thereby decreasing the average time for completion of cases to between 12 and 18 months. The comment period ended August 27, 2011. The staff projects submission of the rulemaking file to DCA and the Office of Administrative Law (OAL) for approval in early 2012.
- **Disciplinary Standards and Uniform Guidelines:** Business and Professions Code section 315 establishes a Substance Abuse Coordinating Committee (SACC) to develop uniform standards for substance-abusing healing arts licensees. On July 22, 2011, the Board published a Notice of Proposed Regulations which contained the uniform standards adopted by the SACC. These regulations standardize the healing arts board language as it relates to drug testing, disciplinary orders, and conditions of probation. A hearing was held September 6, 2011. The regulatory proposal is pending before the Board.
- **Sponsored Healthcare Events – Requirements for Exemption:** On June 10, 2011, the Board filed a Notice of Proposed Regulations with the OAL. These regulations will make specific provisions of Assembly Bill 2699, Bass (Chapter 270, Statutes of 2010) to allow a healthcare practitioner licensed in another state but not in California to participate in free healthcare events in California for uninsured or under-insured individuals. These regulations were approved by the Board and staff projects submission to OAL in early 2012.
- **Senate Bill 539, Price,** extends the operation of the Board until January 1, 2016, and requires an applicant for a LVN or PT license to have completed specified courses from an approved school. The bill also closes a loophole in existing statutes by requiring an employer, employment agency, or nursing registry to report the resignation for cause, or the rejection from assignment of an LVN or PT. It also specifies that a violation is a misdemeanor.
